20	DESTROY		

## WRITING

(180-250 words)

Don't waste time. Improve your skills

School days are the time when you can improve skills that will be necessary in the adult life. How should student boost them, then? There is three words which answer the question — the Debate Club.

The members of the club have an amazing opportunity to improve their communication skills and to learn how to express and defend their position on the particular theme. Discussing different problems about environment, education and technologies, you can also become more broad-minded. The part of the work of the Debate Club is engaging students in different conferences and competitions. Ultimately, if you win a debate competition next year, it will help you enter the university.

Moreover, our club is like a family. Here you can find new friends, discuss with them themes that you are interested in and get a feedback or an advance. We even have a tradition to go to cinema or a cafe together every weekend. It is a part of our work that strengthens the friendship in the club.

The Debate Club is a place where you ~~to~~ can both improve your communication skills and have a great time with other intelligent and interesting persons. So, we look forward to seeing you in our family!
