What teenagers like to do in their free time?

Are you an adult and want to bond with your teenager, but don't know what to do? Well, this article is for you! We'll be talking about what boys and girls teenagers like to do in their free time, so you can understand them better!

First, let's talk about girls. You'd expect shopping, and you would be right, but WINDOW shopping is far more interesting and common. Just walking around a mall, looking in the stores, is surprisingly interesting for a teenage girl. But it might get tiring after some time. Another thing is painting! Most girls are very artistic and creative, so painting would be an awesome activity to spend time together. Just some paint and paper might change your entire relationship.

Now, let's talk about boys. Boys like physical activity and surprisingly, teamwork. So football is a great option. The rules are simple, and you can play football basically anywhere! Some other alternatives are basketball and volleyball. But if you want something indoors, Gaming is also great! Just a TV, a console or a keyboard, a screen and you and your teenager, and fun is guaranteed! No weather will harm you, no street animals, just you and your teenager having fun.

Though these activities are more common in genders that the sub-articles are talking about, they aren't tied to them! There's lots of girls who like gaming and lots of boys that like painting!

But in the end, maybe you should ask your teenager first, about what they would like to do. Don't be shy to try and spend time with them, do it until it's too late!

#### Time Outside School

You know I am a teenager and I'm busy as a bee. But I try to find free time to relax. When school time is over, I don't want to waste even one minute. I want to move, create and learn something new because it is what makes me feel alive. What about you?

Sport is the best thing you can do in your spare time. A lot of youngsters like me enjoy swimming, running and skiing. Sport helps me stay in shape. It teaches ~~me~~ never give up even when you are so tired. After training sessions I feel stronger not only physically but mentally too.

Art is a completely different kind of activity. Writing, music and painting allow teens to slow down and rest. When they create something, time flies for them.

Olympiads and contests add some interesting tasks with extraordinary solutions to teens' lives. These competitions teach them to think out of the box and look at problems from different points of view. Even mistakes play an important role because it helps them become stronger and smarter.

Free time is important. Thanks to sport, art and some contests youngsters discover ~~themselves~~ themselves and learn how to live their own lives.

#### Teenagers' free time<sup>3</sup>

Nowadays, the majority of people ask themselves: what do the teenagers like doing in their free time, which interests do they have? Let me answer these questions one by one.<sup>98</sup>

I will begin with the teenagers' interests, because based on them, teens usually choose a hobby, and then develop it into a career. Me, as a teenager, usually play videogames and learn maths and English. If you think that teenagers are degrading nowadays, you're completely wrong.<sup>99</sup> They have an opportunity to learn more, to broaden their minds, or just to entertain. Big thanks to the new technologies and devices.<sup>102.</sup>

Back to the interests, I would say that martial arts are quite popular among teenagers in the 21st century, or just sports: tennis, basketball, volleyball, football, rugby, and etc.<sup>131.</sup> It can be videogames, programming, cybersport, or just chatting and hanging out with friends and family; going for a walk and simply studying at school.<sup>156.</sup>

Overall, with this article, I wanted to answer a popular question: what teenagers like doing in their free time. Hopefully, I replied correctly, only based on my opinion. Big thanks for reading!<sup>188</sup>

How do teenagers use their free time?

Nowadays, grown ups say that teenagers do nothing but play computer games in their free time, but is that really true?

Yes, this generations teenagers are mostly seen playing computer games that can help with socializing with people and building teamwork, but what is the percentage of teenagers who actually do that? But teenagers can do a lot more than just playing games. Some go outside and play or exercise, the other watch TV. But some teenagers even enjoy cooking or doing chores around the house. And in rare cases they work. Even if electronics seem dangerous and addictive, they can help with learning and studying, some even watch foreign TV and read books that helps improve their vocabulary. Not to mention the ones who go as far as learning programming, that can help them take off with a successful future. Even playing games or watching TV helps teenagers to relax and cool off after a long day.

So, in conclusion teenagers have a wide variety of things they enjoy to do in their freetime. And we should remember not to compare and always lean towards being productive in our free time, no matter if you're a teenager or not.

## Part IV. WRITING

## Saying 'NO' to boredom

"What do teenagers like doing in their free time?" Quite an interesting question. As a teenager myself, I will attempt to unveil the mystery.

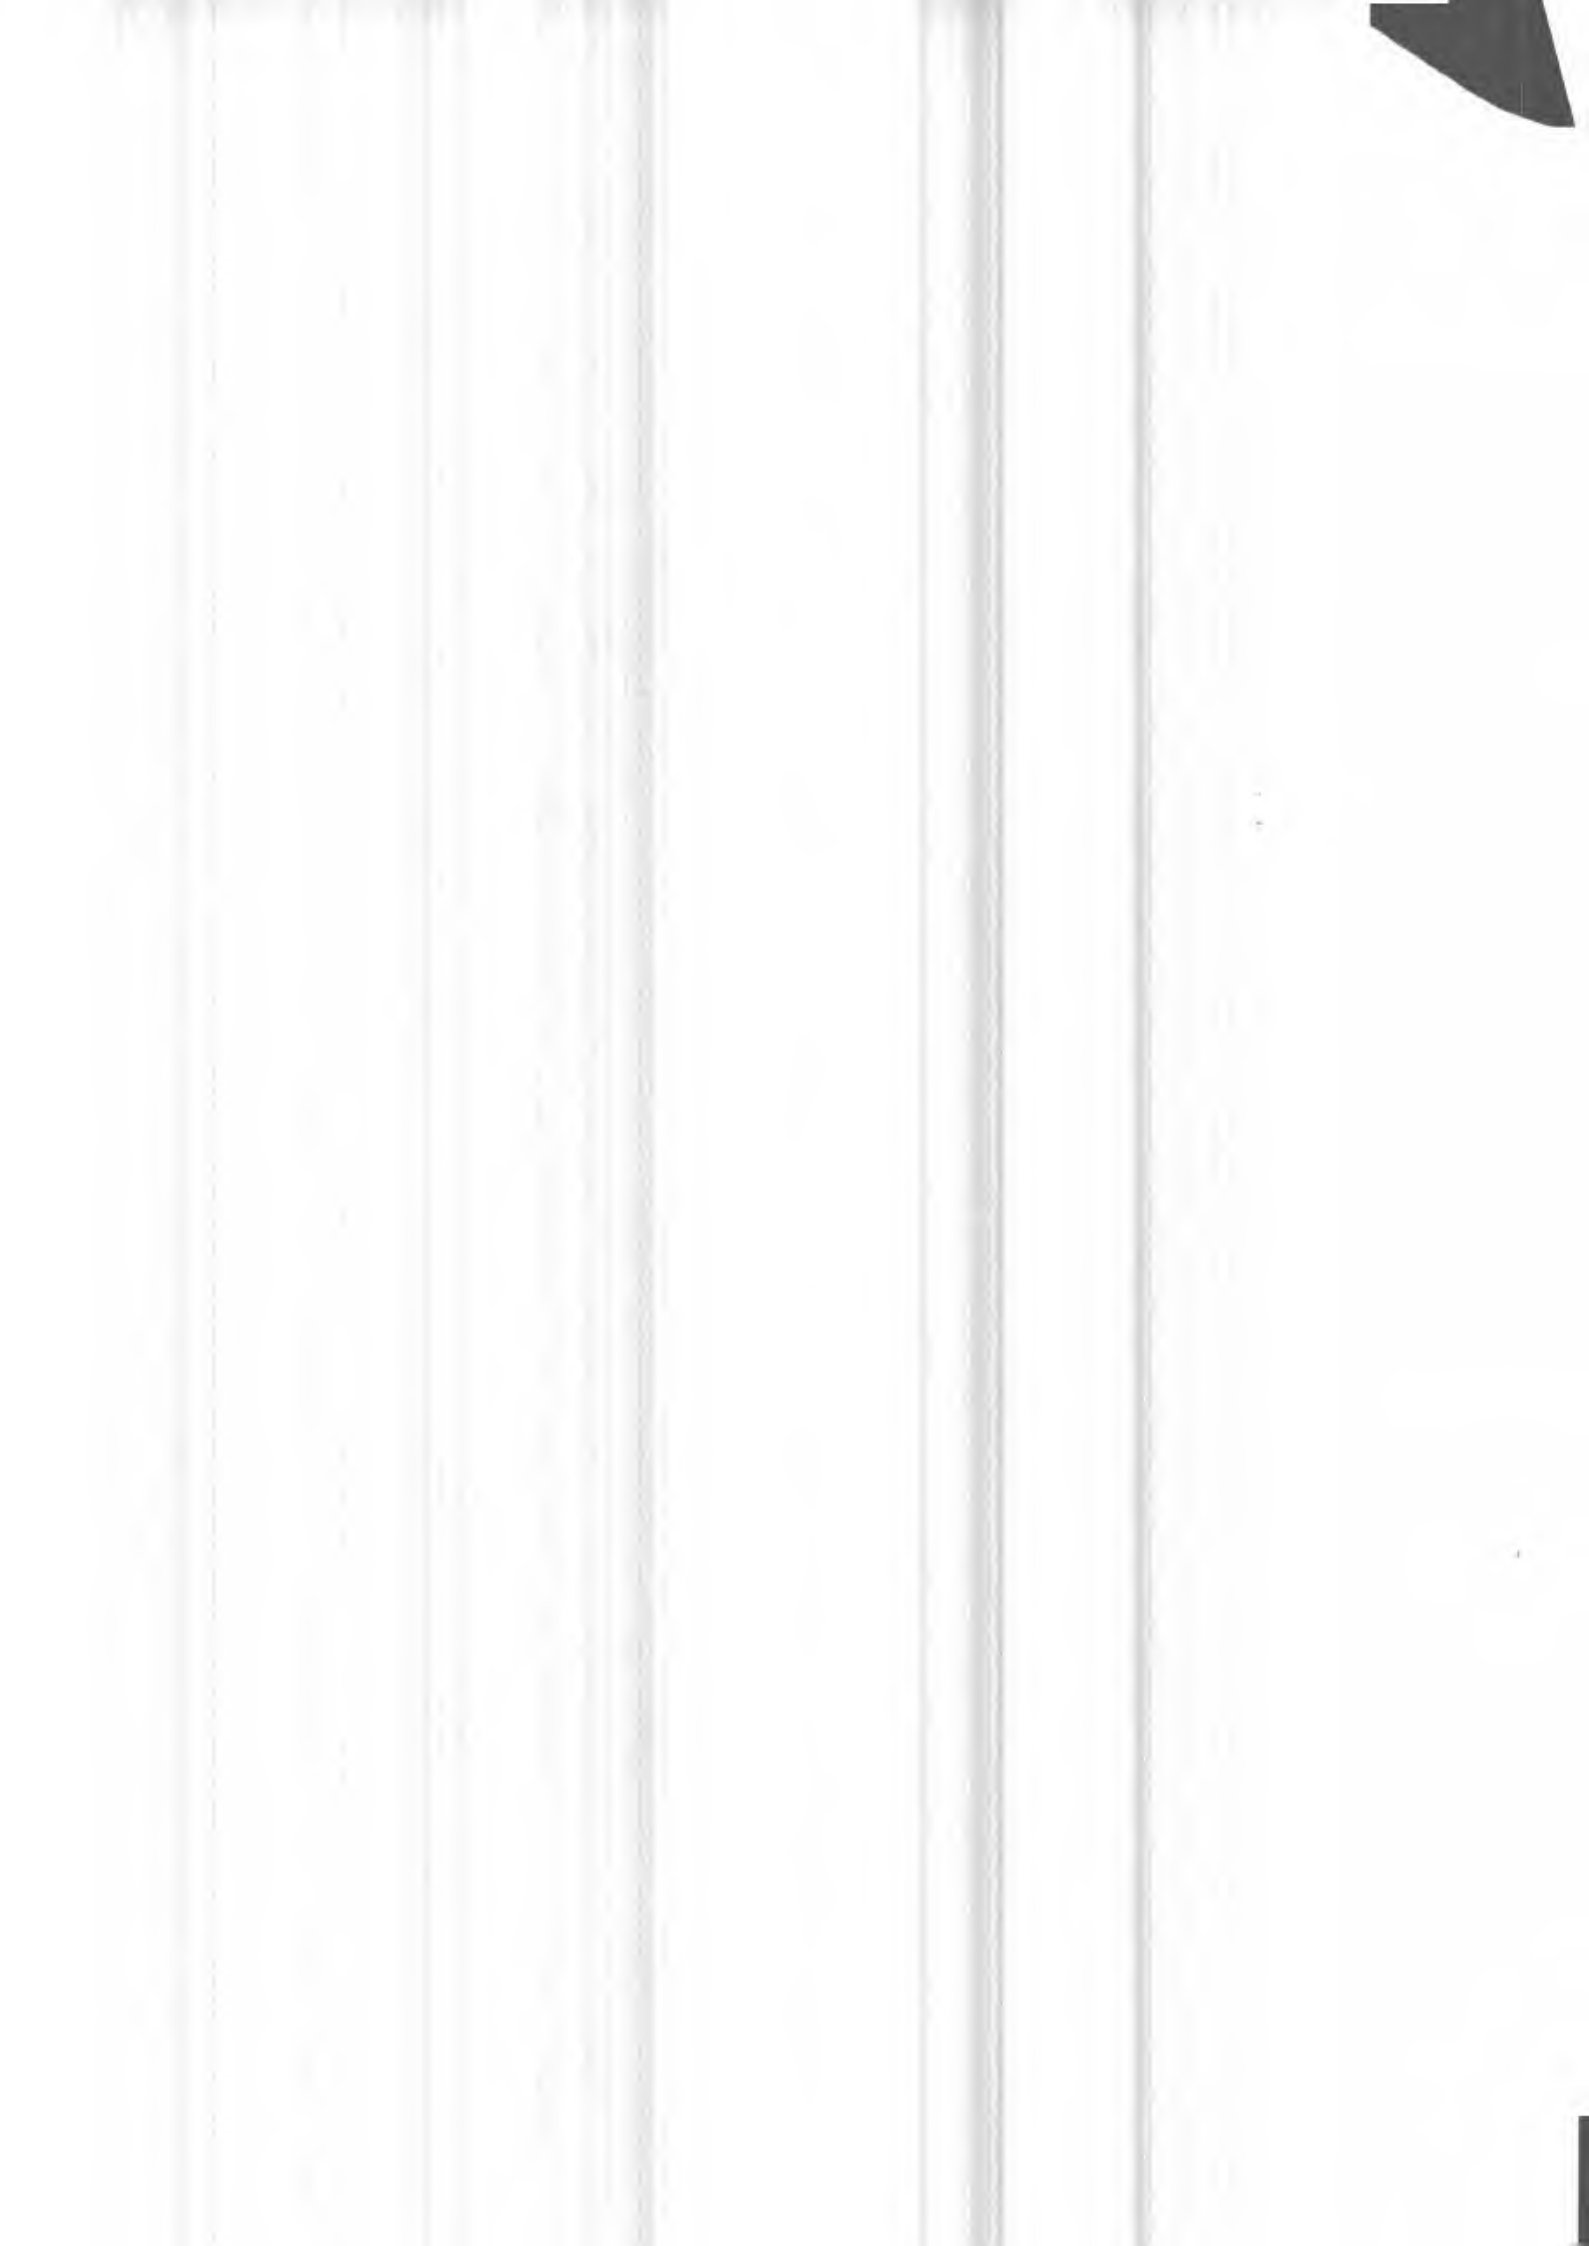

First things first, we are all different people with completely different personalities. Our likes and dislikes, hobbies and character shape our preferred activities for free time. However, some pastimes are common for teenagers. Most of them have access to their phones, so video games, chatting online or just simply doomscrolling are popular. When you have your phone in your hand, time appears to just fly by!

Other than that, teenagers like meeting with their friends, going to parties and filling their social need to the 'overflow' point. Some ~~are~~ Talk about real social butterflies!

Hobbies are also <sup>play</sup> have a major part role in shooing away boredom. Drawing, writing, singing, dancing, knitting, reading and many other hobbies are a great way to kill time! I have not even started on sports!

In conclusion, even though we all spend free time differently, some activities stay all-time favourites. I mean, who does not enjoy an unhealthy amount of doomscrolling? In all seriousness, it is up to you to decide how you will spend your free time. It is called yours for a reason!

### Part IV. WRITING

#### The teenagers' free time.

Many teenagers have very busy days. In the morning they go to school. After that they have extra classes, for example, trainings, art classes. Also they need to do their homework. But teenagers know how spend free time productively interesting.

Most of the teenagers like surfing the Net in their free time. But it is boring. Moreover, it is bad for young eyes. So, lots of teenagers meet with friends. They walk in the parks, go to the cinema and eat outside. Many girls like to go shopping together. They buy new clothes, things and give advices to each other. Boys like to play computer games together or have fun outside. But there are people who like staying at home or they haven't got friends for some reasons. So, they recharge their batteries in their cozy bedrooms. They listen to music, watch films, read books, draw pictures. And it is interesting for them.

You don't need to think that teenagers always use their mobile devices and they are the only interesting thing for them. Teenagers have a lot of good ways to spend their free time.

### Part IV. WRITING

What teenagers like doing in their free time?

Free time for us is very important. We can not work or study all day like some robots and computers. Speaking about teenagers, their kinds of spending free time are different.

Some adults think that most of teenagers enjoy only playing computer games. To tell you the truth, this is wrong sentence. From my point of view, a lot of teenagers like travelling abroad. They are interested in trying local food and taking photos. Besides, most of teenagers love reading books like "Oliver Twist" or "Robin Hood". Somebody who speaks fluent English can reading English books. Of course, some teenagers suffer from computer games, but I hope most of them won't spend too much time and will enjoy study at the computers. As for me, I like dancing and drawing in my free time. I have been drawing since I was six, so it is my hobby.

In fact, teenagers' hobbies are different, but very interesting. Somebody like dancing and singing, somebody enjoy reading their favourite books. "Tastes differ" - say proverb.

#### Russian teens' free time activities.

We, teenagers, usually don't have much free time, so we try to use it wisely. At most, I think, we get around two hours to spend on hobbies and other such things on weekdays, but that's if you don't go to any extra classes. However, on weekends, we have quite a lot of time. So, we use it for:

1. Hobbies. There is an uncountable amount of them. You could buy a telescope and try stargazing, or you could do woodworking. But personally, I enjoy ant keeping the most. It's basically keeping ants at home in special enclosures. It's been getting more popular with kids and teens lately.

2. Sports. Keeping fit is good for your health, and is fun. Boys like football, basketball, hockey, etc. I like skiing the most. Maybe, I might even try snowboarding, as I love being up in the mountains. The other sport that I adore, is hiking, as, again, I like being out in the nature, breathing the fresh air... You get it.

But some people might disagree. Someone can dedicate their entire time on studying, others might be lazy and not get off the sofa for the whole day. For me, that's boring, but I understand them! It's ok to have opinions, here, you've read mine. In the end of the world, it's impossible to list every activity. Everybody just does things differently, and that's what makes our human society so interesting.

What teens do when their parents aren't looking

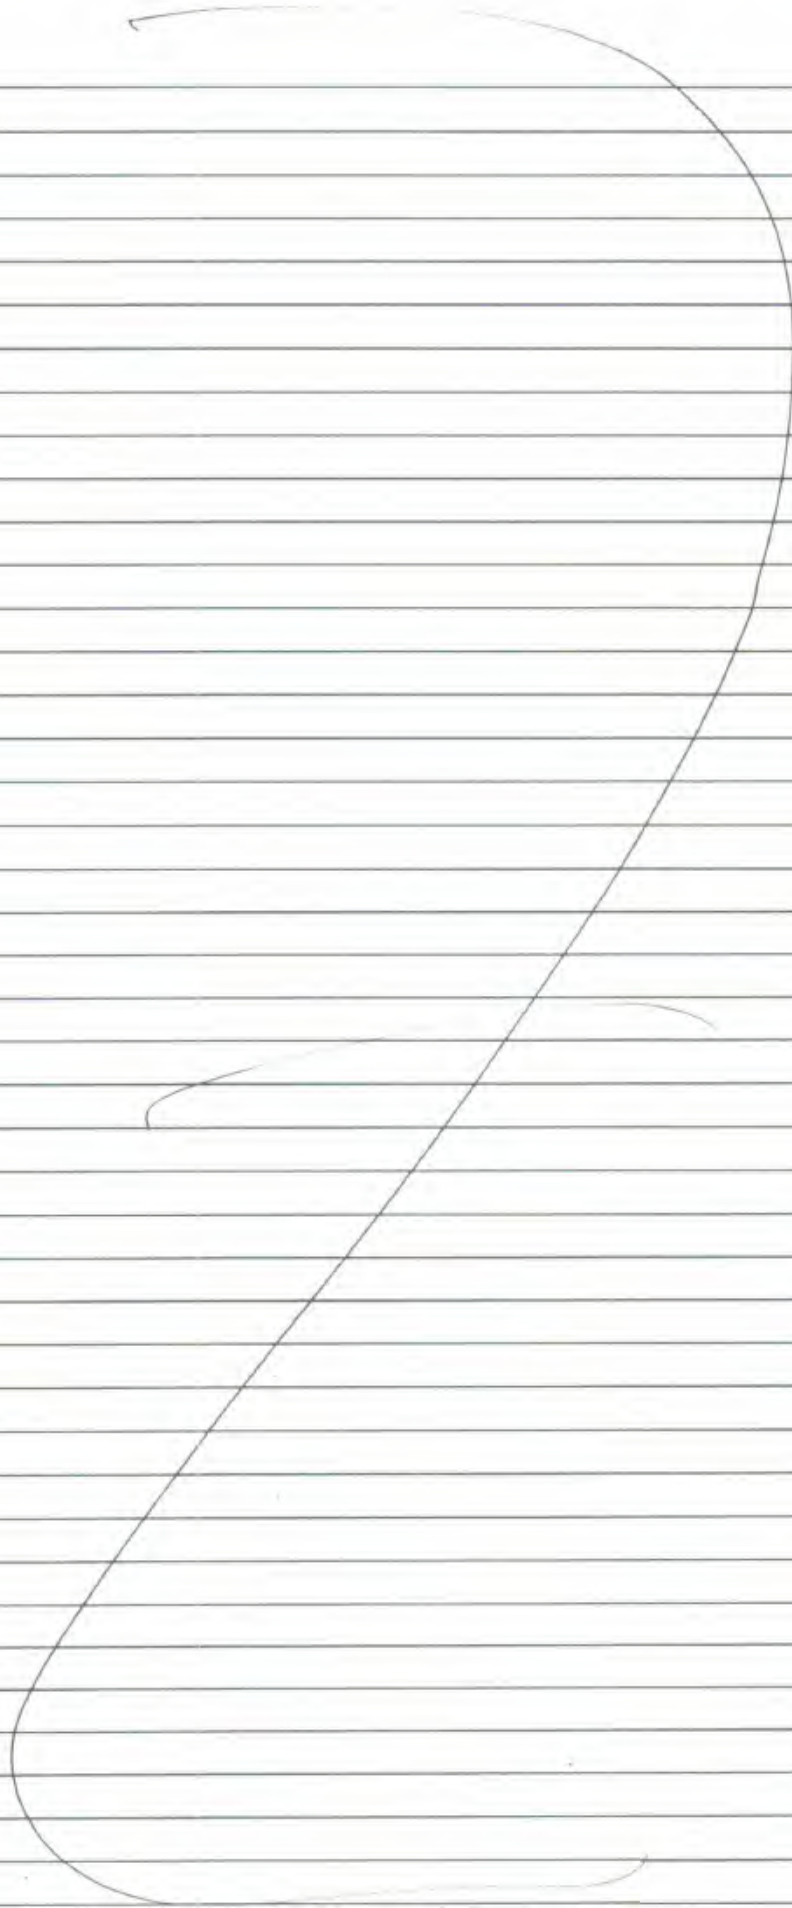

You might know that teenagers are quite a strange and diverse group of people. Some are loud and outgoing, while others are quiet, keep to themselves and would rather not be interacted with in any shape or form. Younger children who look up to teens, <sup>and</sup> elders from a much older generation might wonder: "what do they do in their free time?"

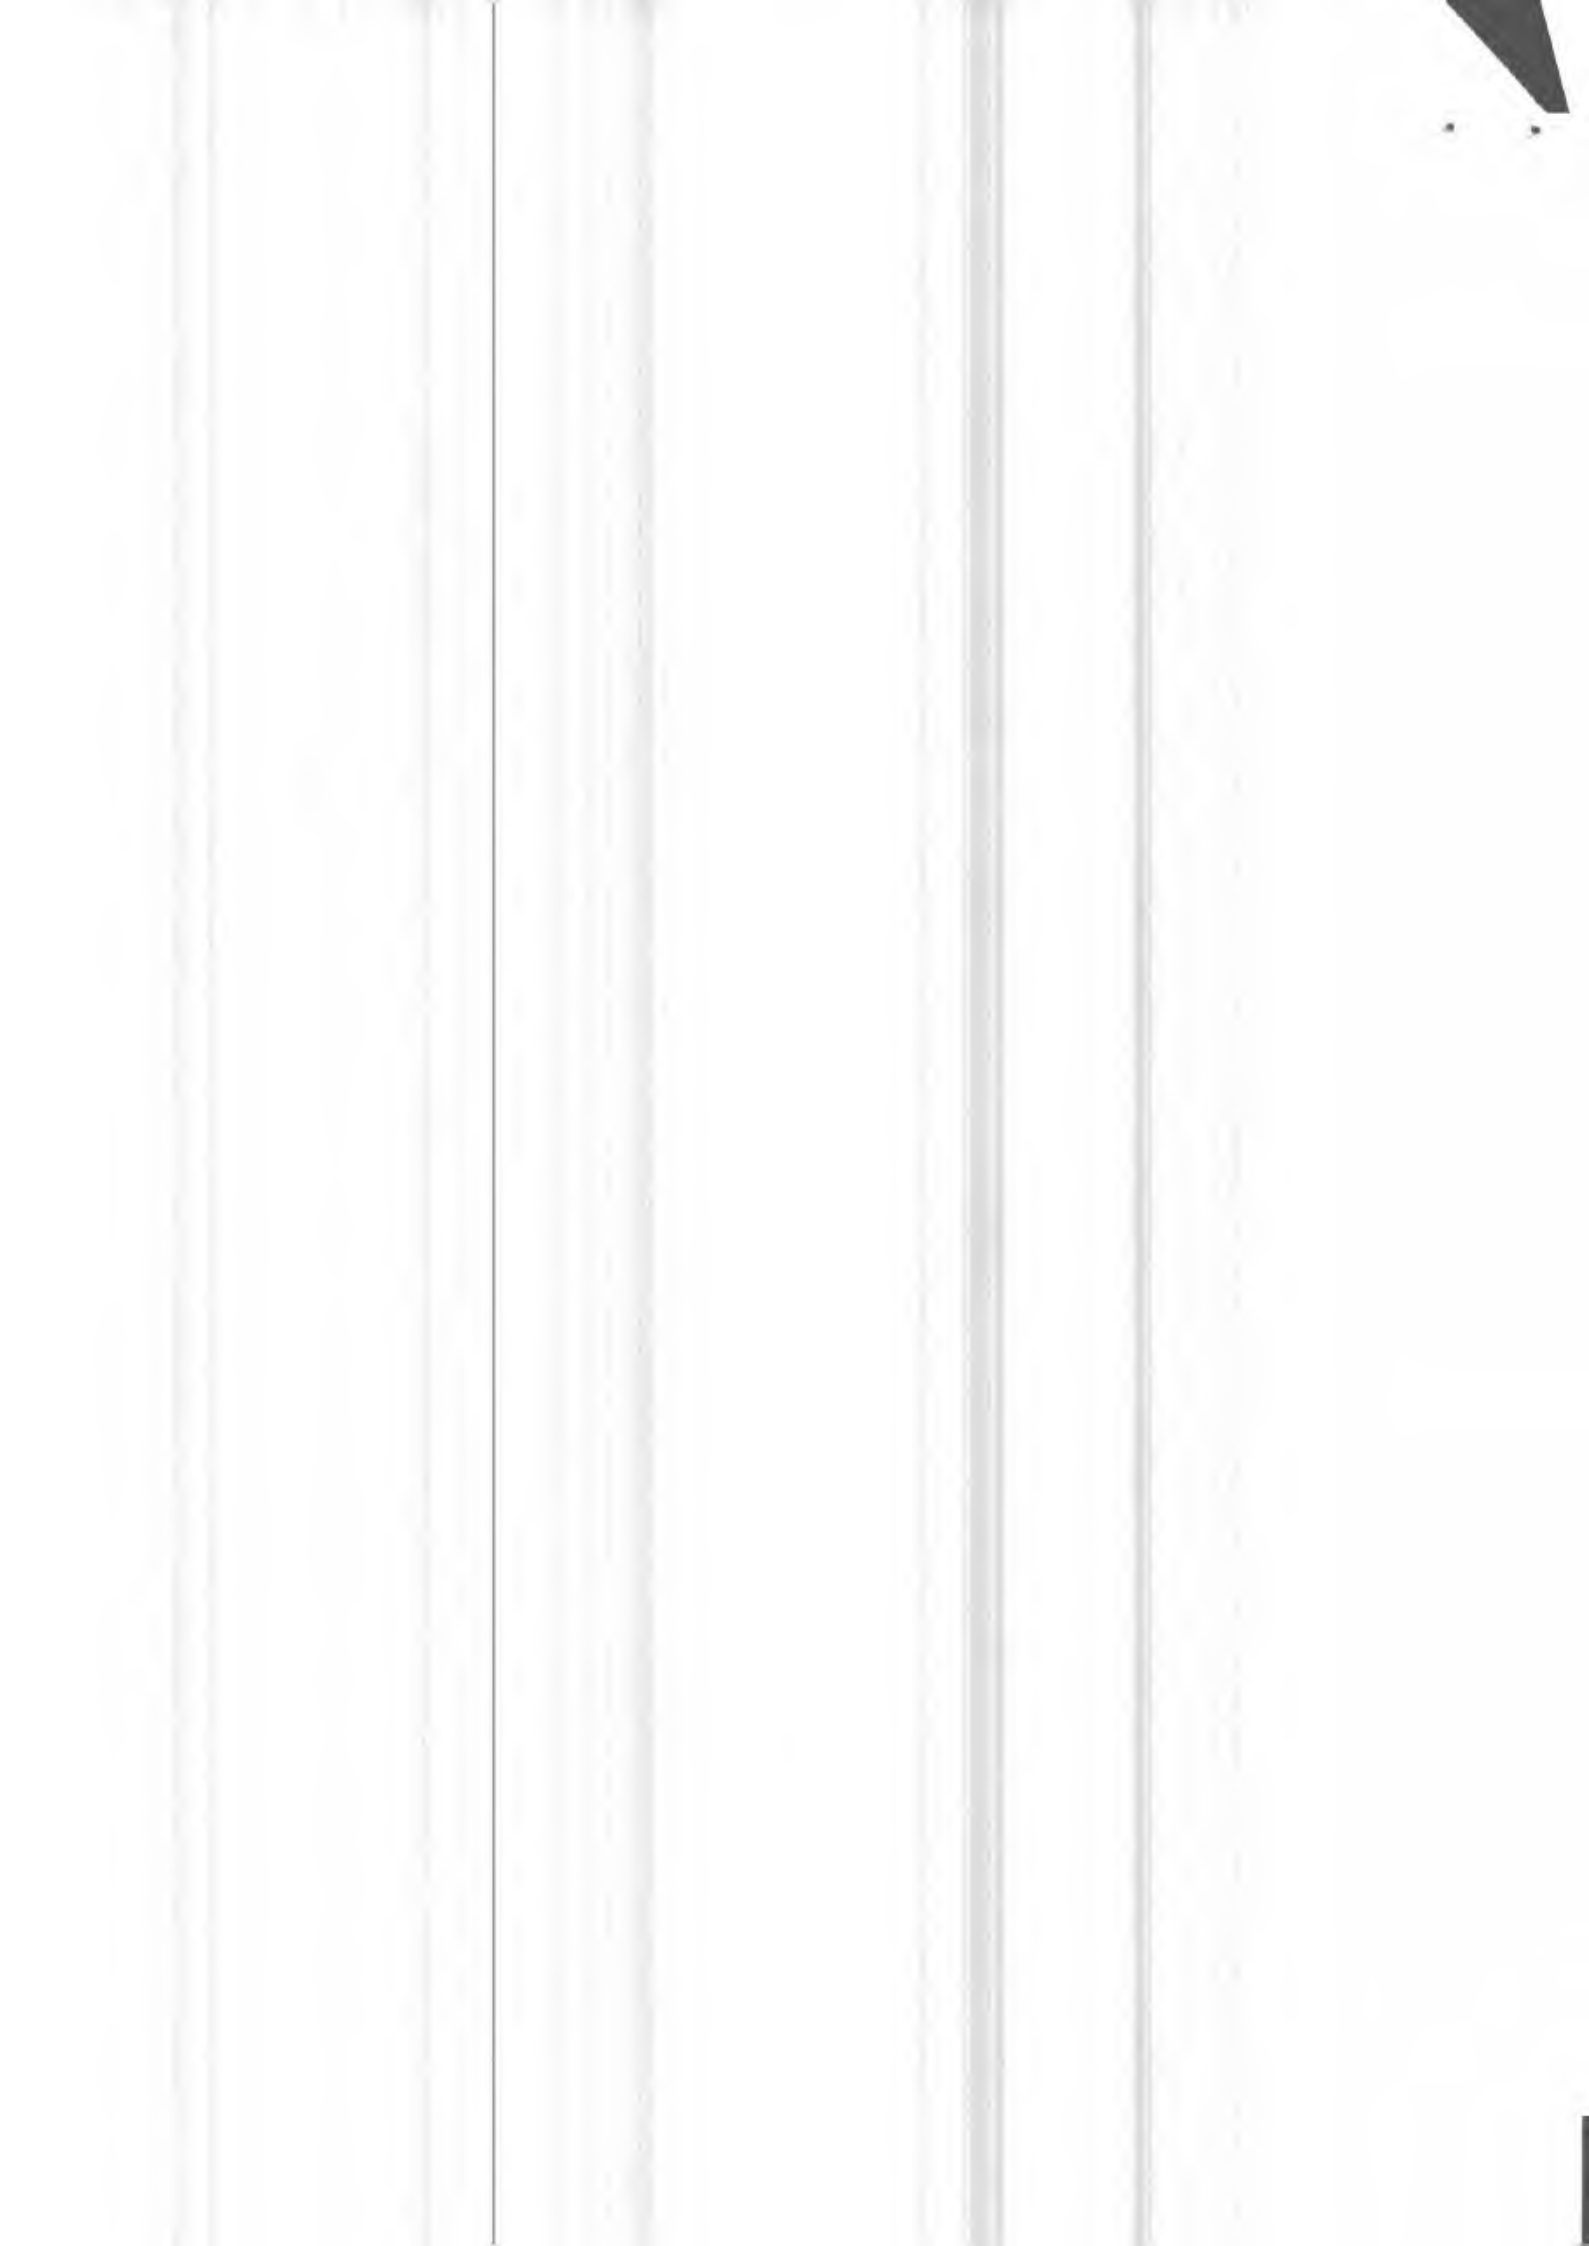

While it's impossible to list every single hobby a teenager might have (or rather incredibly difficult), it's easy to get a partial understanding of the most popular free time activities in a teen's life, by simply asking one. The most popular thing ~~for~~ for teenagers by far is the internet. The internet is vast and has a near-infinite amount of games, books, ~~and~~ other videos, and other forms of media. Outside of the internet, there are still a lot of things to do. More outgoing athletic teens might be into sports like soccer, basketball, or something more extreme, like hockey, or skateboarding. Some might go to the mall to eat fast food or watch a movie with their friends. It depends on how they were raised.

To cut a long story short, a teen's hobbies depend on the environment they grew up in.

TEENAGER'S FREE TIME

Do you know what teenagers like doing in their free time? If you aren't one, you certainly don't know everything. In this article I will tell you how teenagers spend their free time.

First of all, teenagers like to play games. They either play outside with their friends or play computer games. Today, computer games are much more popular, but teenagers still play outside with their friends. The second most popular activity among teenagers is watching movies. This is by far the most popular activity among all ages. You can go to a cinema and watch films there, but if you have a TV at home, you don't even have to go anywhere. This is why it is so popular. And the third activity is sports. A lot of teenagers are exercising in some way or another. Sports can be done in a gym, outside or even at home.

Overall, most teenagers spend their free time playing games, watching movies or doing sports. I have listed only the three most common activities, but there are a lot more things teenagers do in their free time.

Part IV. WRITING

Freetime of teenagers.

All over the world teenagers love spending their freetime doing something they like to do. Usually teenagers go for a walk, hang out, play video games, or just relax their way they want. In this article, I'm going to tell you about it.

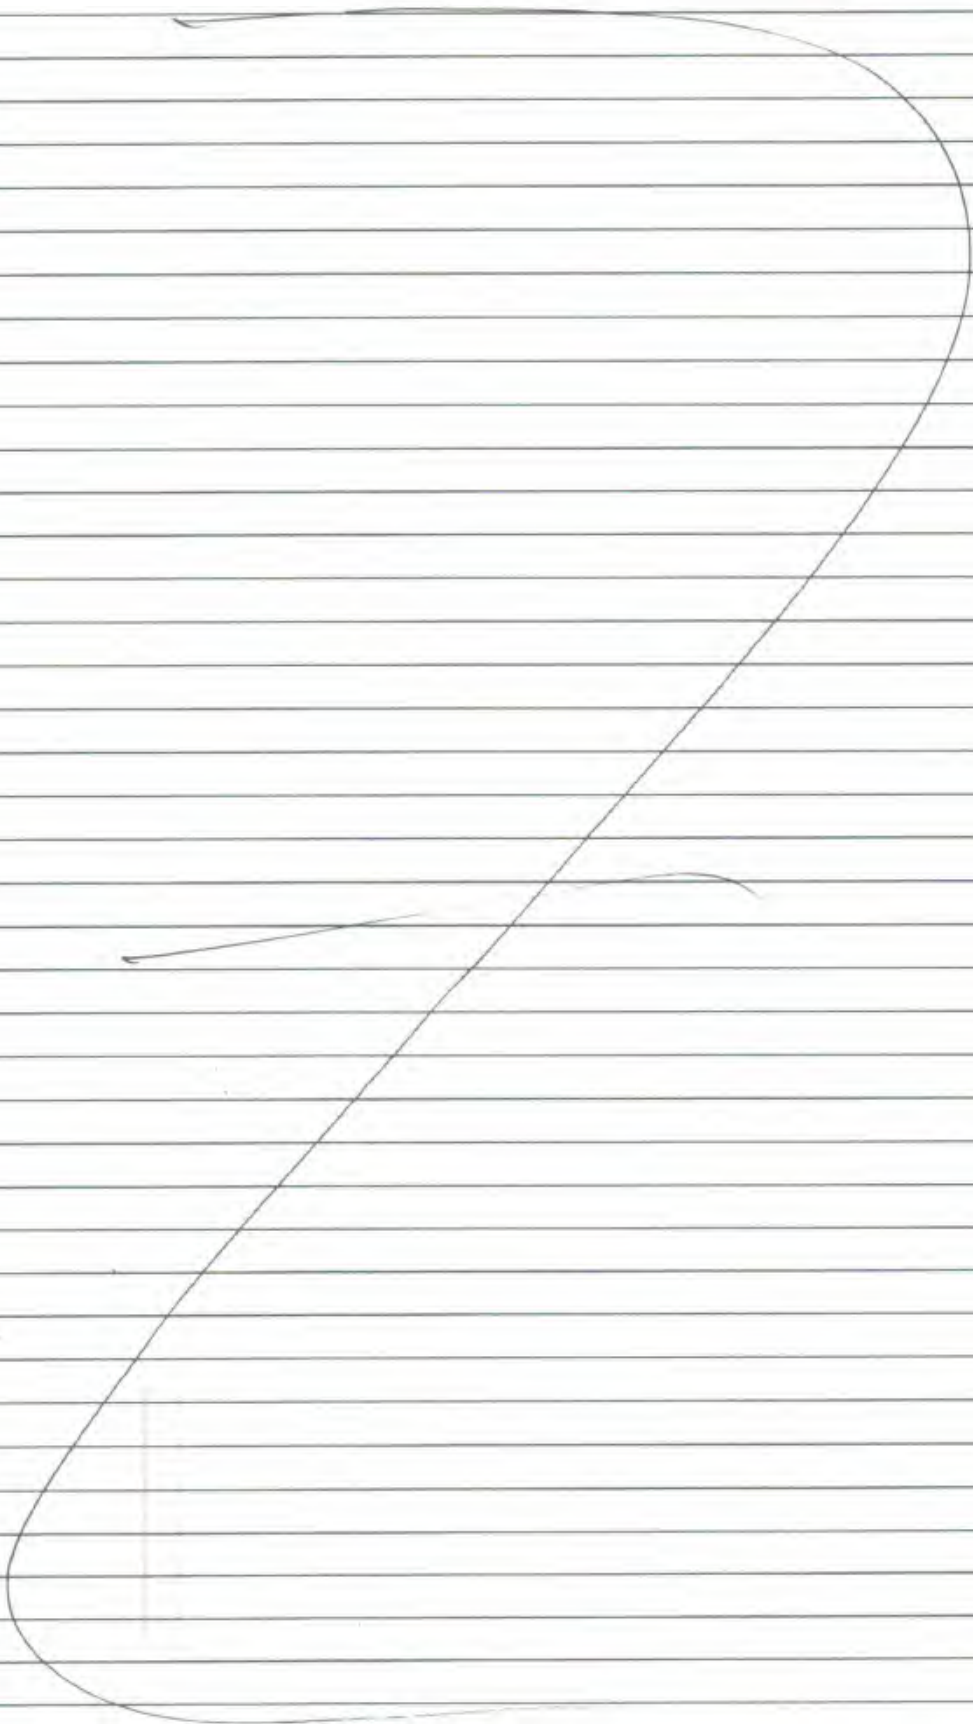

Often, teenagers spend their freetime doing outdoor activity, as walking, hanging out, skating, and more other activity. The one of main problem is weather or season for example, in ~~Summer~~ summer it's much easier to do outdoor activity, because you don't need to dress jackets, coats, or other winter clothes. Also, it's easier to do, because students have holidays, so they have freetime all day. Indoor activity is popular too but people less ~~often~~ do it in summer. Teenagers usually play computer games or console games. Also they use social media as "Discord", "Telegram", and voice chat or chats in game to communicate. It's one of the best activity for people who likes being at home most part of the day.

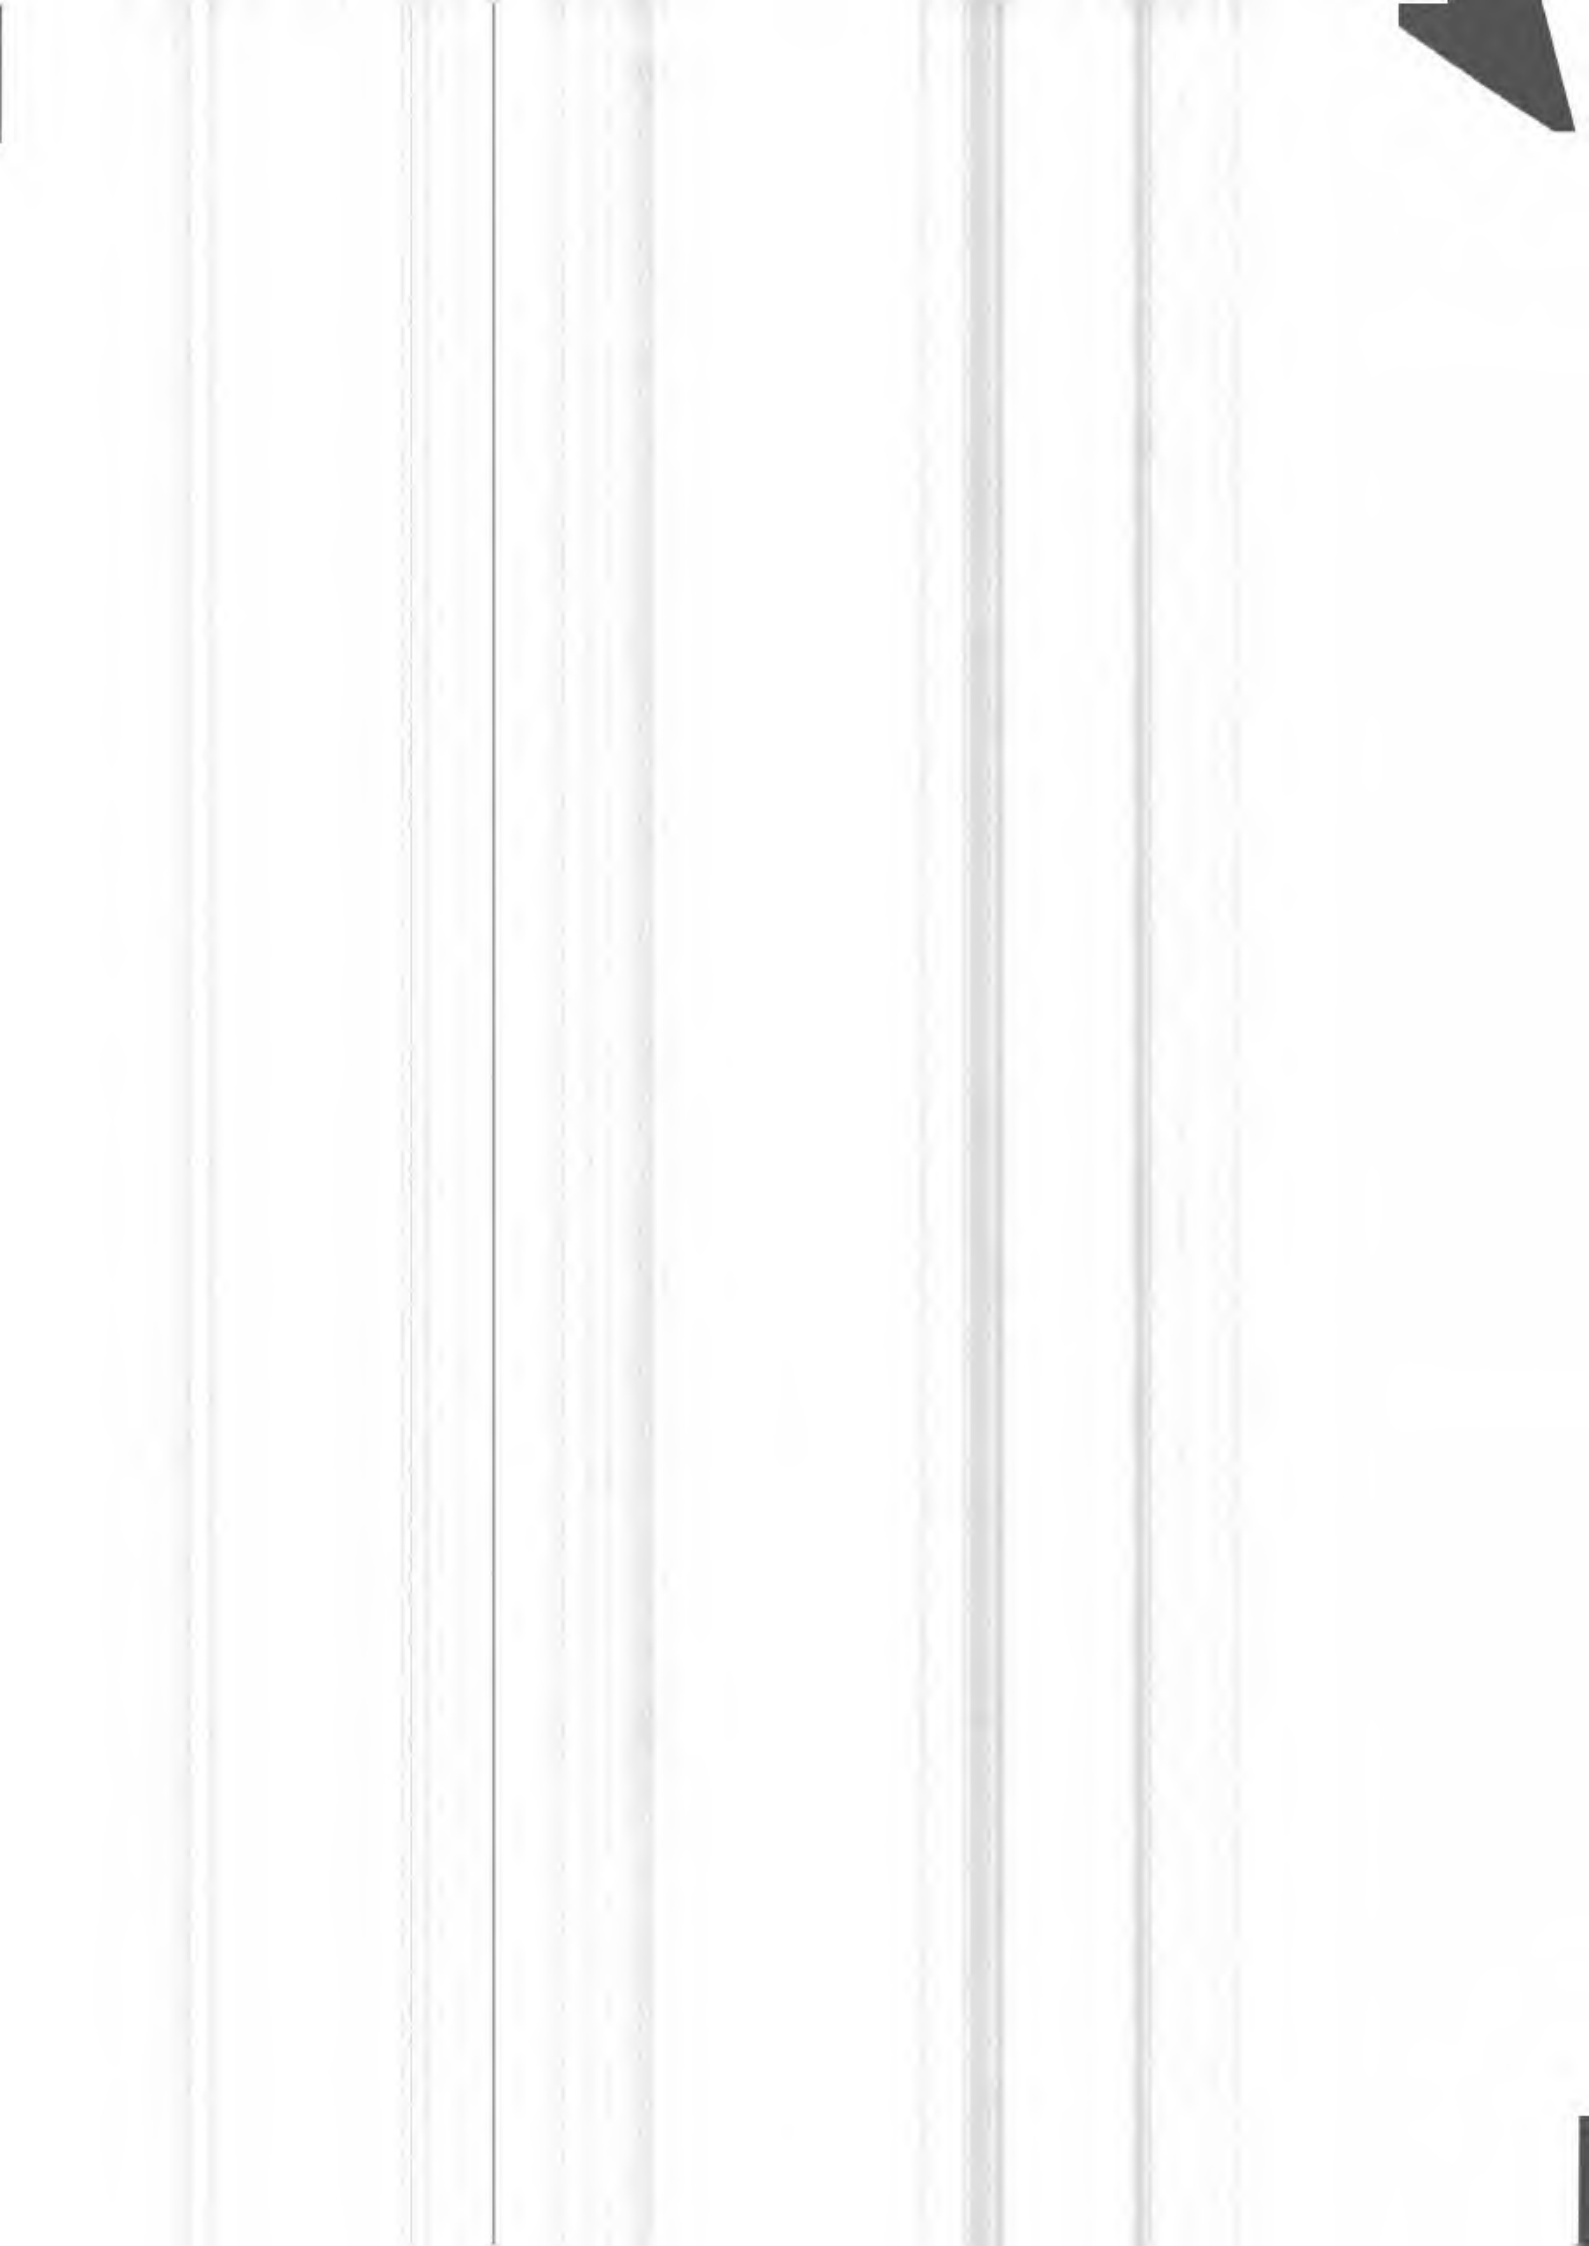

For myself, I chose indoor activity, because I don't like going outside for no reason. Why? Because for me, it's more interesting and using computer with joysticks, gamepads, gaming steering wheel and more accessories, you can try being a pilot, a driver, a train conductor and other jobs. In games you can train reaction and skill, and entertain yourself and friends there. Also, you can make new friends there and play with them. You can chat and have a call with no need to meet each other in real life.

In conclusion, teenagers try different freetime activity and it can become a hobby, or even help to choose a degree or a job. They can easily entertain themselves and ~~can~~ <sup>make</sup> new friends.

#### Teens' activities during the free time

Many teenagers nowadays have a lot of activities to do in their free time. In this article I am going to name and talk about the most popular ones.

First, video games or computer games. Teens just adore them! However, types of games may be different, for example, horror or any other absolutely extraordinary kind, depending on their interests.

Second, movies or series. Teens love it as well! Here there are many more types of films and series to watch, for instance, comedies, drama, soap operas, action movies, thrillers and other types. Moreover, other teens may do not prefer kinds of movies that I've already mentioned. People prefer animation, a unique and fun type of shows in the world of cinematography. For kids, this animation can be called as cartoons, for example Moana, The Beauty and the Beast, Kungfu Panda and other cartoons. For children a little bit older and, of course, teenagers there is another type of animation like anime.

And third, reading books. It's not very popular activity, but I know that there are some existing people, who are into reading.

In the end I would like to say, that teens differ, and their favourite activities differ as well. And I guess that readers' activities, who are reading my article are absolutely different from mine.

FREE TIME: HOW DO TEENS HAVE FUN?

Most of teenagers think about what can they do in their free time. Parents would tell them ~~not~~ not to spend it using mobile phones. In fact, mobile phones create the most easy way to do everything you want. But <sup>many</sup> some children can find a perfect solution for their problem.

First of all, teenagers are very active people who like movable games or something fascinating. Kids at the age of about twelve are able to spend their time with family. But teens at the age of thirteen and older would like to hang up with friends and go shopping, skating on the ice rink or just talk together. They want to have thrilling weekends. Many teenagers also spend time with their boyfriends or girlfriends. Lots of parents decide not to allow to do it because they think that their son or daughter can start smoking or doing worse things. All of us understand that parents only try to protect and love us, not to control.

So ~~but~~ young boys and girls like doing crazy things to make their life more hilarious. And their parents should help them to find friends if they haven't made them yet.

11 "What teenagers like doing in their free time."

Many people asking teenagers about "What are they doing in their free time?" But teenagers don't answer them, keeping it in secret. And today I will spill the beans about teenagers free time activities for you, my dear reader.

There are two types of teenagers. First type prefers to spend their free time outside the house. For example, go to walk with friends or go to cafe with parents. Well, also there exist second type of teenager, which prefer to spend free time at home. But also, there exist one unusually type, which belongs to first group and second group (type) of teenagers.

Now, I want to tell about what each type of teenagers like to do in their free time. The first type in free time likes to go to loud party or to camping with friends. This type ~~hates~~ hates quiet. Second type love quiet activities, such as cook something, play computer games and etc. Third type of teenager is a mix of first and second types. Teenagers of this type like at-home activities and outside-home activities.

I am belongs to first type of teenagers. I usually go to parties with my friends. For which type of teenagers belongs you?

### Part IV. WRITING

#### Teenagers' free time

Nowadays, teenagers have a lot of things they can do in their free time. In this article, I'm going to tell about what teens like doing in their free time.

First of all, almost every teenager has a hobby. It can be cooking, reading, doing yoga, playing computer games, hanging out and so on. Hobby is something you like to do in your free time. So I think just sitting on the sofa may be a hobby for somebody.

Next, teens can provide clarity in their houses and they can do part-time jobs. To do the house clean, teenagers can mop the floors, take out the rubbish, wash dishes or something easy like making the bed. In my honest opinion it is not that fun, but it isn't boring. Also after reaching 14 in Russia, you can do part-time jobs, such as a deliverer, a camp counsellor or a waiter. It is a perfect variant to make money in such ages, but you don't get much money, because teens mustn't work more than 24 hours a week.

Finally, a lot of teens doing sports. The most famous are football, basketball, tennis and cybersport. The most important thing in sports is to be smarter than your opponent.

To sum up, teenagers try to improve physical and mental abilities doing hobbies, house works, part-time jobs and sports.

Part IV. WRITING

Popular hobbies among teens

Teenagers all over the world go to school regularly. But what do they do in their free time?

Lots of kids do sports. For example football. It's really common for boys. Maybe, it is because of their ambitions to do sport such as Lamine Yamal or Lionel Messi do.

A huge amount of young people prefer to play musical instruments or have vocal classes. They can also practice at school and start performing from a young age.

And the last but not least. Teens are art people. They paint and draw a lot. Make clay sculptures and moreover, 3-d projects.

And finally, computer games are teenagers real passion. Every second young person plays computer games. They can relax while playing them and it is also a possibility to spend time with their friends.

To sum up, teens are not always lazy stupid guys. Sometimes they do lots of interesting things in their free time. There are lots of benefits for every single hobby. Teenagers can choose a job, based on their favorite time spending. Everything is really useful.

### Part IV. WRITING

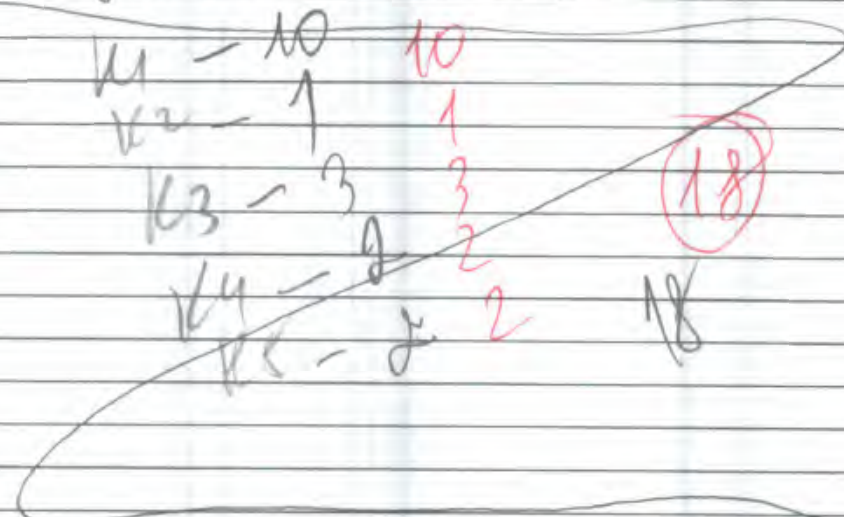

#### • Teenagers and their free time.

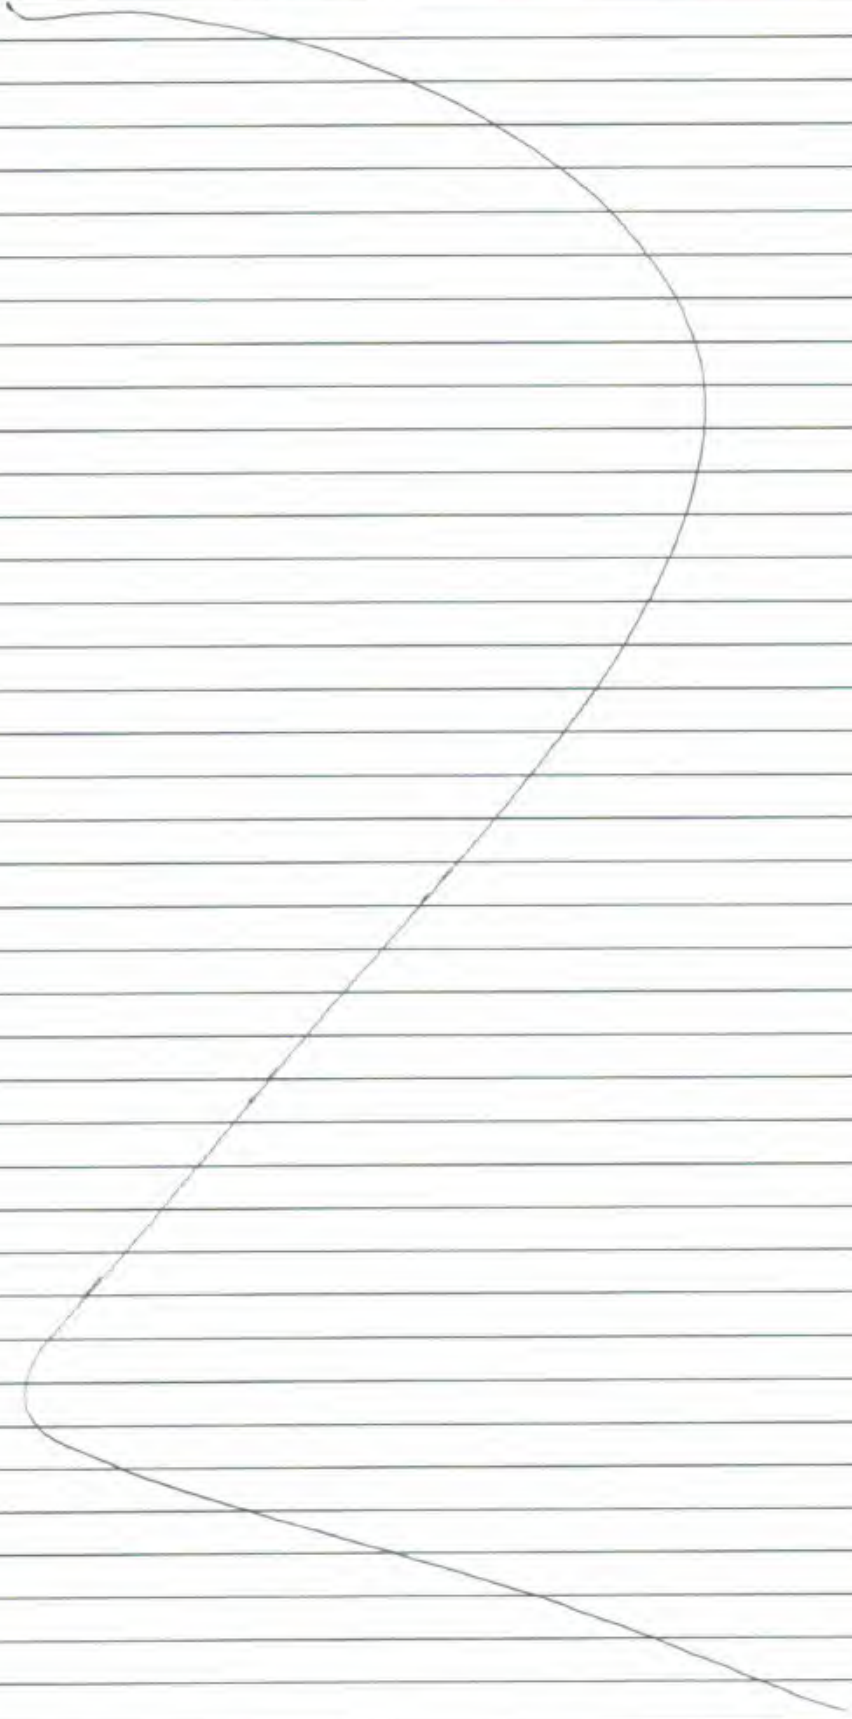

Just close your ~~eyes~~ and imagine: after a long and hard day, you return to your home and realize that now you have your own free time, that can be spent for something that you really like. You can go for a walk with your friends or siblings, play with your pet or maybe read breathtaking book: you can do all that you want. Young generation always ~~has~~ has a lot of free time, but for what do teenagers spend it?

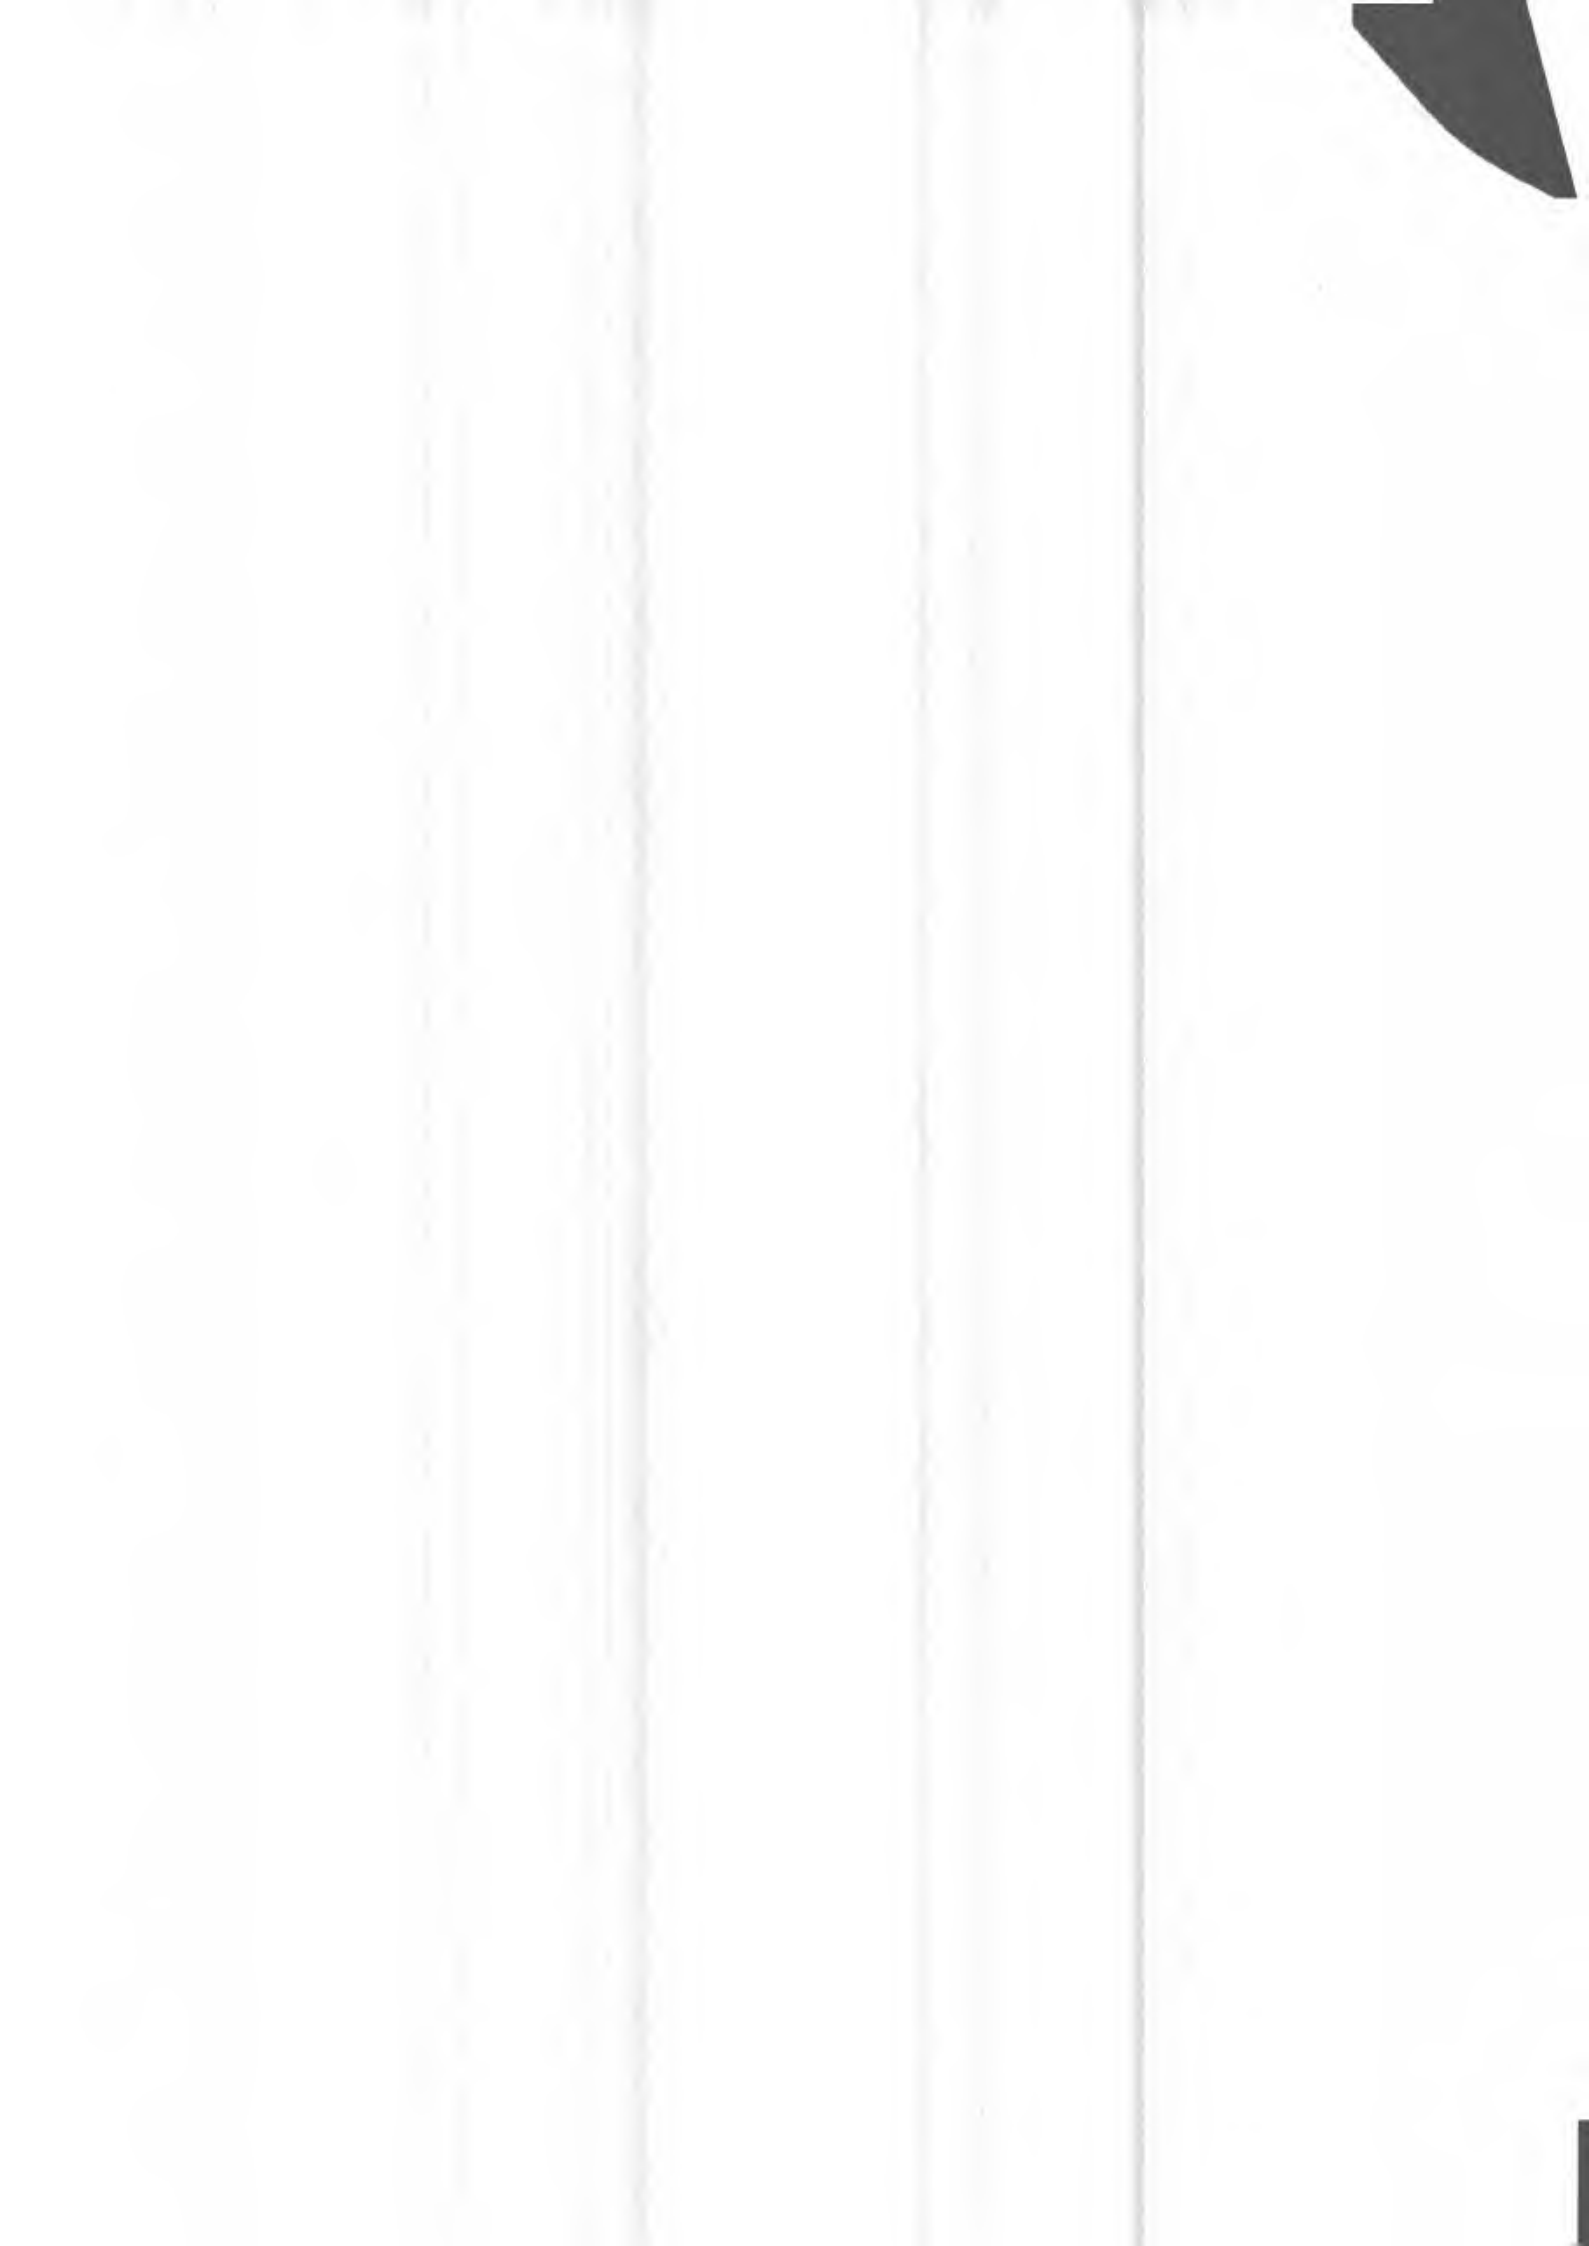

Firstly, now the century of technologies, so teenagers like spending time in gadgets. Everybody of us knows TikTok, Instagram and Youtube: children enjoy watching it. It's a good way to relax and forget about all problems. Some teenagers like to play computer games. Others use gadgets to learn something new, like maths formulas or new languages.

Guys, who don't like to spend time in gadgets, spend it for hobby, like dancing, cooking or playing the piano for example. As for me it's better than wasting time in ~~gadgets~~ gadgets, because they can ~~break~~ break ~~your~~ your health.

There are a lot of other ways to spend time and every of them is enjoyable, magnetic and entertaining. Remember, that nobody can judge you and decide what will you do in free hour. It's your own time: just relax and don't care.

The cool things, which teenagers ~~are~~ do in like doing in their free time

A lot of parents think that teenagers always ~~surf~~ surf the Internet, chat online and play video games in their free time. Do your parents think the same? If your answer is "yes", that's really pity, because teenagers do a lot of useful things in their free time. And I want to persuade parents, that they're not right so, let's start!

I think hobby is very important thing in teenagers' lives. For example, I really like playing tennis and learning English. When you're doing the thing, that you really like, you're really resting. That's really important to teenagers. When you do the thing, that you really like, you really rest. That's really important to teenagers, because they often have a difficult day. And last but not least, teenagers, who doing a hobby can find a lot of new friends, who doing the same hobby. That's really cool! Just imagine, you can find the person, who thinking as you and doing the same hobby.

In my opinion, friends are the most important people in teenagers' lives, so teenagers often talk or walk with them. Scientists have proved that when you talk or walk with your friends, you get communicative skills. That's really important for the future life, because in the future you will have to find a job or a Plat and you won't do it without talking with people.

And that's not all things which teenagers do in their free time. They have a lot of things to do! So if I want to tell about them all, I will spend a lot of time writing this article!

### Part IV. WRITING

When adults see teenagers, they always think about what they are doing in their free time. Some adults think that their activities is just a waste of time and it is one & blue moon when they are doing something useful, but they are wrong.

Some teenagers like to ~~play~~ play computer games and adults say that it is useless, but some computer games improve their mind and reaction. Even scientists made a test, where gamer was versus book lover in reaction test and gamer won.

But some ~~teenagers~~ teenagers don't like computer games. They prefer walking. Walking is healthier than playing computer games. At the walk they always read and jump everywhere and it makes them stronger every day and it is very healthy activity. But not everything is so good. Some teenagers go for walk for doing bad things like smoking and it will be better to play computer games than smoking.

Once a blue moon teenagers are ideal. They like reading books. But reading books is not so good that some adults think. Yes, reading books is good for imagination and books help broad their mind. But due to books their eyes become worse and worse everyday, because letters are very small in some books. Also reading books prevent them from walking and breathing fresh air and due to it they become nervous and sensitive.

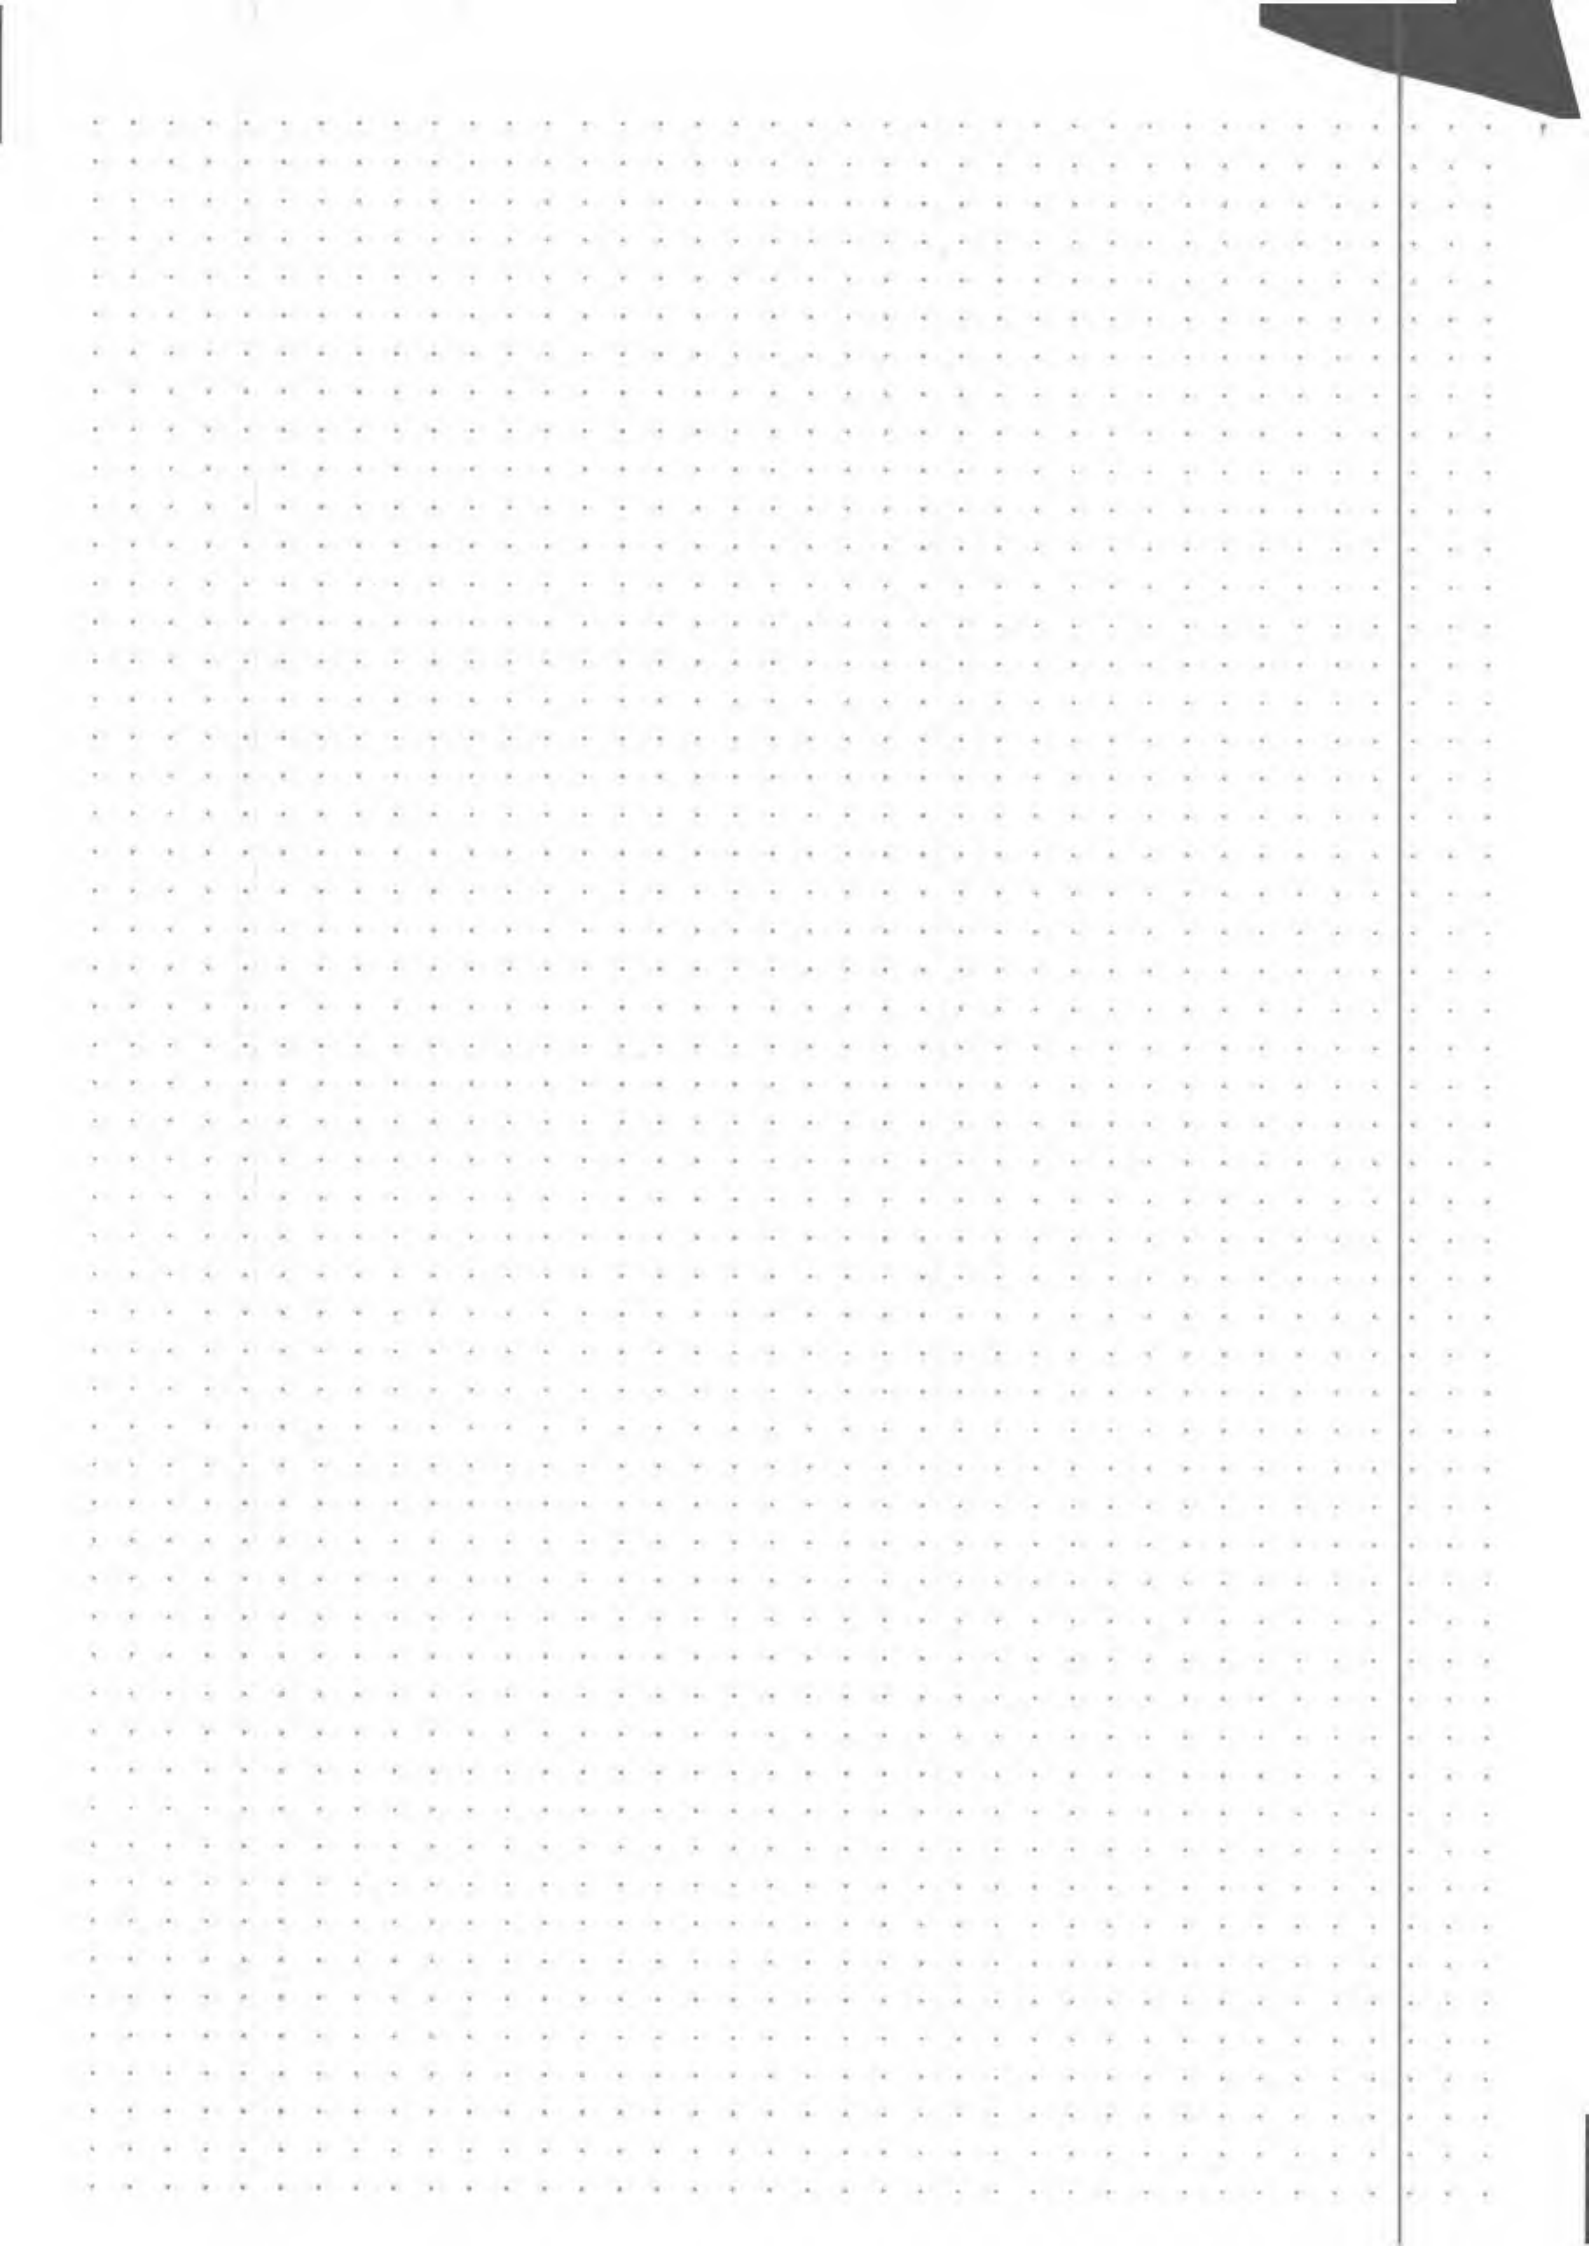

Every teenagers' activity has advantages and ~~disadvantages~~ disadvantages. But don't prevent them from their activities. In some day they will understand, that they are doing good things.

Free time of a teenager

Have you ever wondered of what teenagers do in their free time? As a teenager student I am going to try and tell everything I know about the ways of teenagers spend their free time. It is important to understand that every teen has a unique character, hobbies and interests, so finding a simple way of telling the ultimate activity is basically im. that fits every teenager is basically impossible. However there are still many common things most teens do, such as playing outside and playing videogames.

So are the things teenagers enjoy doing in their free time just some simple activities you can think of? Not exactly, since even though teens are often seen doing them doesn't mean that it's the only thing that matters. The most important part is the teenagers mood and character. Sometimes they want to stay alone yet sometimes they want attention. And if you can spot the difference between these two moods, you are guaranteed to understand them, because they are also human people just like us.

In conclusion, teenagers have two main ways of spending their free time: relaxing alone playing videogames or walking or being with their friends and family. The most common ways of relaxing alone are playing videogames and walking outside, while for spending time with friends and family those are playing games together or simply talking.

Teenagers' activities in their free time.

Dear readers, have you ever thought about what teenagers like doing in their free time? Well today, I am going to name some activities that could draw your attention.

First of all we've got skateboarding, a breath-taking hobby that underlines pers a teenagers' ~~person~~ vivid and adrenaline-seeking personality. Many people are crazy about skateboarding because of a bunch of tricks to learn about and show to their friends. Another activity I'd like to discuss about is going out with friends. In fact this activity is not only popular with teenagers, but <sup>with</sup> people of all ages. Teenagers often go out with their friends to have a ball, for example & it can be going shopping, eating in a restaurant or just going for a stroll. One more activity that is popular with teenagers is bowling. What can be nicer than a smell of fresh pizza and having the best time of your life with your friends. Last but not least is doomscrolling, funny as it may sound, it's just surfing the net and nothing more.

In conclusion I'd like to say that tastes differ and everyone has their activity to like. Thanks for reading and wait for my other articles.

## Teenager's (Everyday) Free Time Activities

There're loads of stuff teenagers could do in their free time. Especially nowadays when almost everybody has an access to use some of the high-tech gadgets.

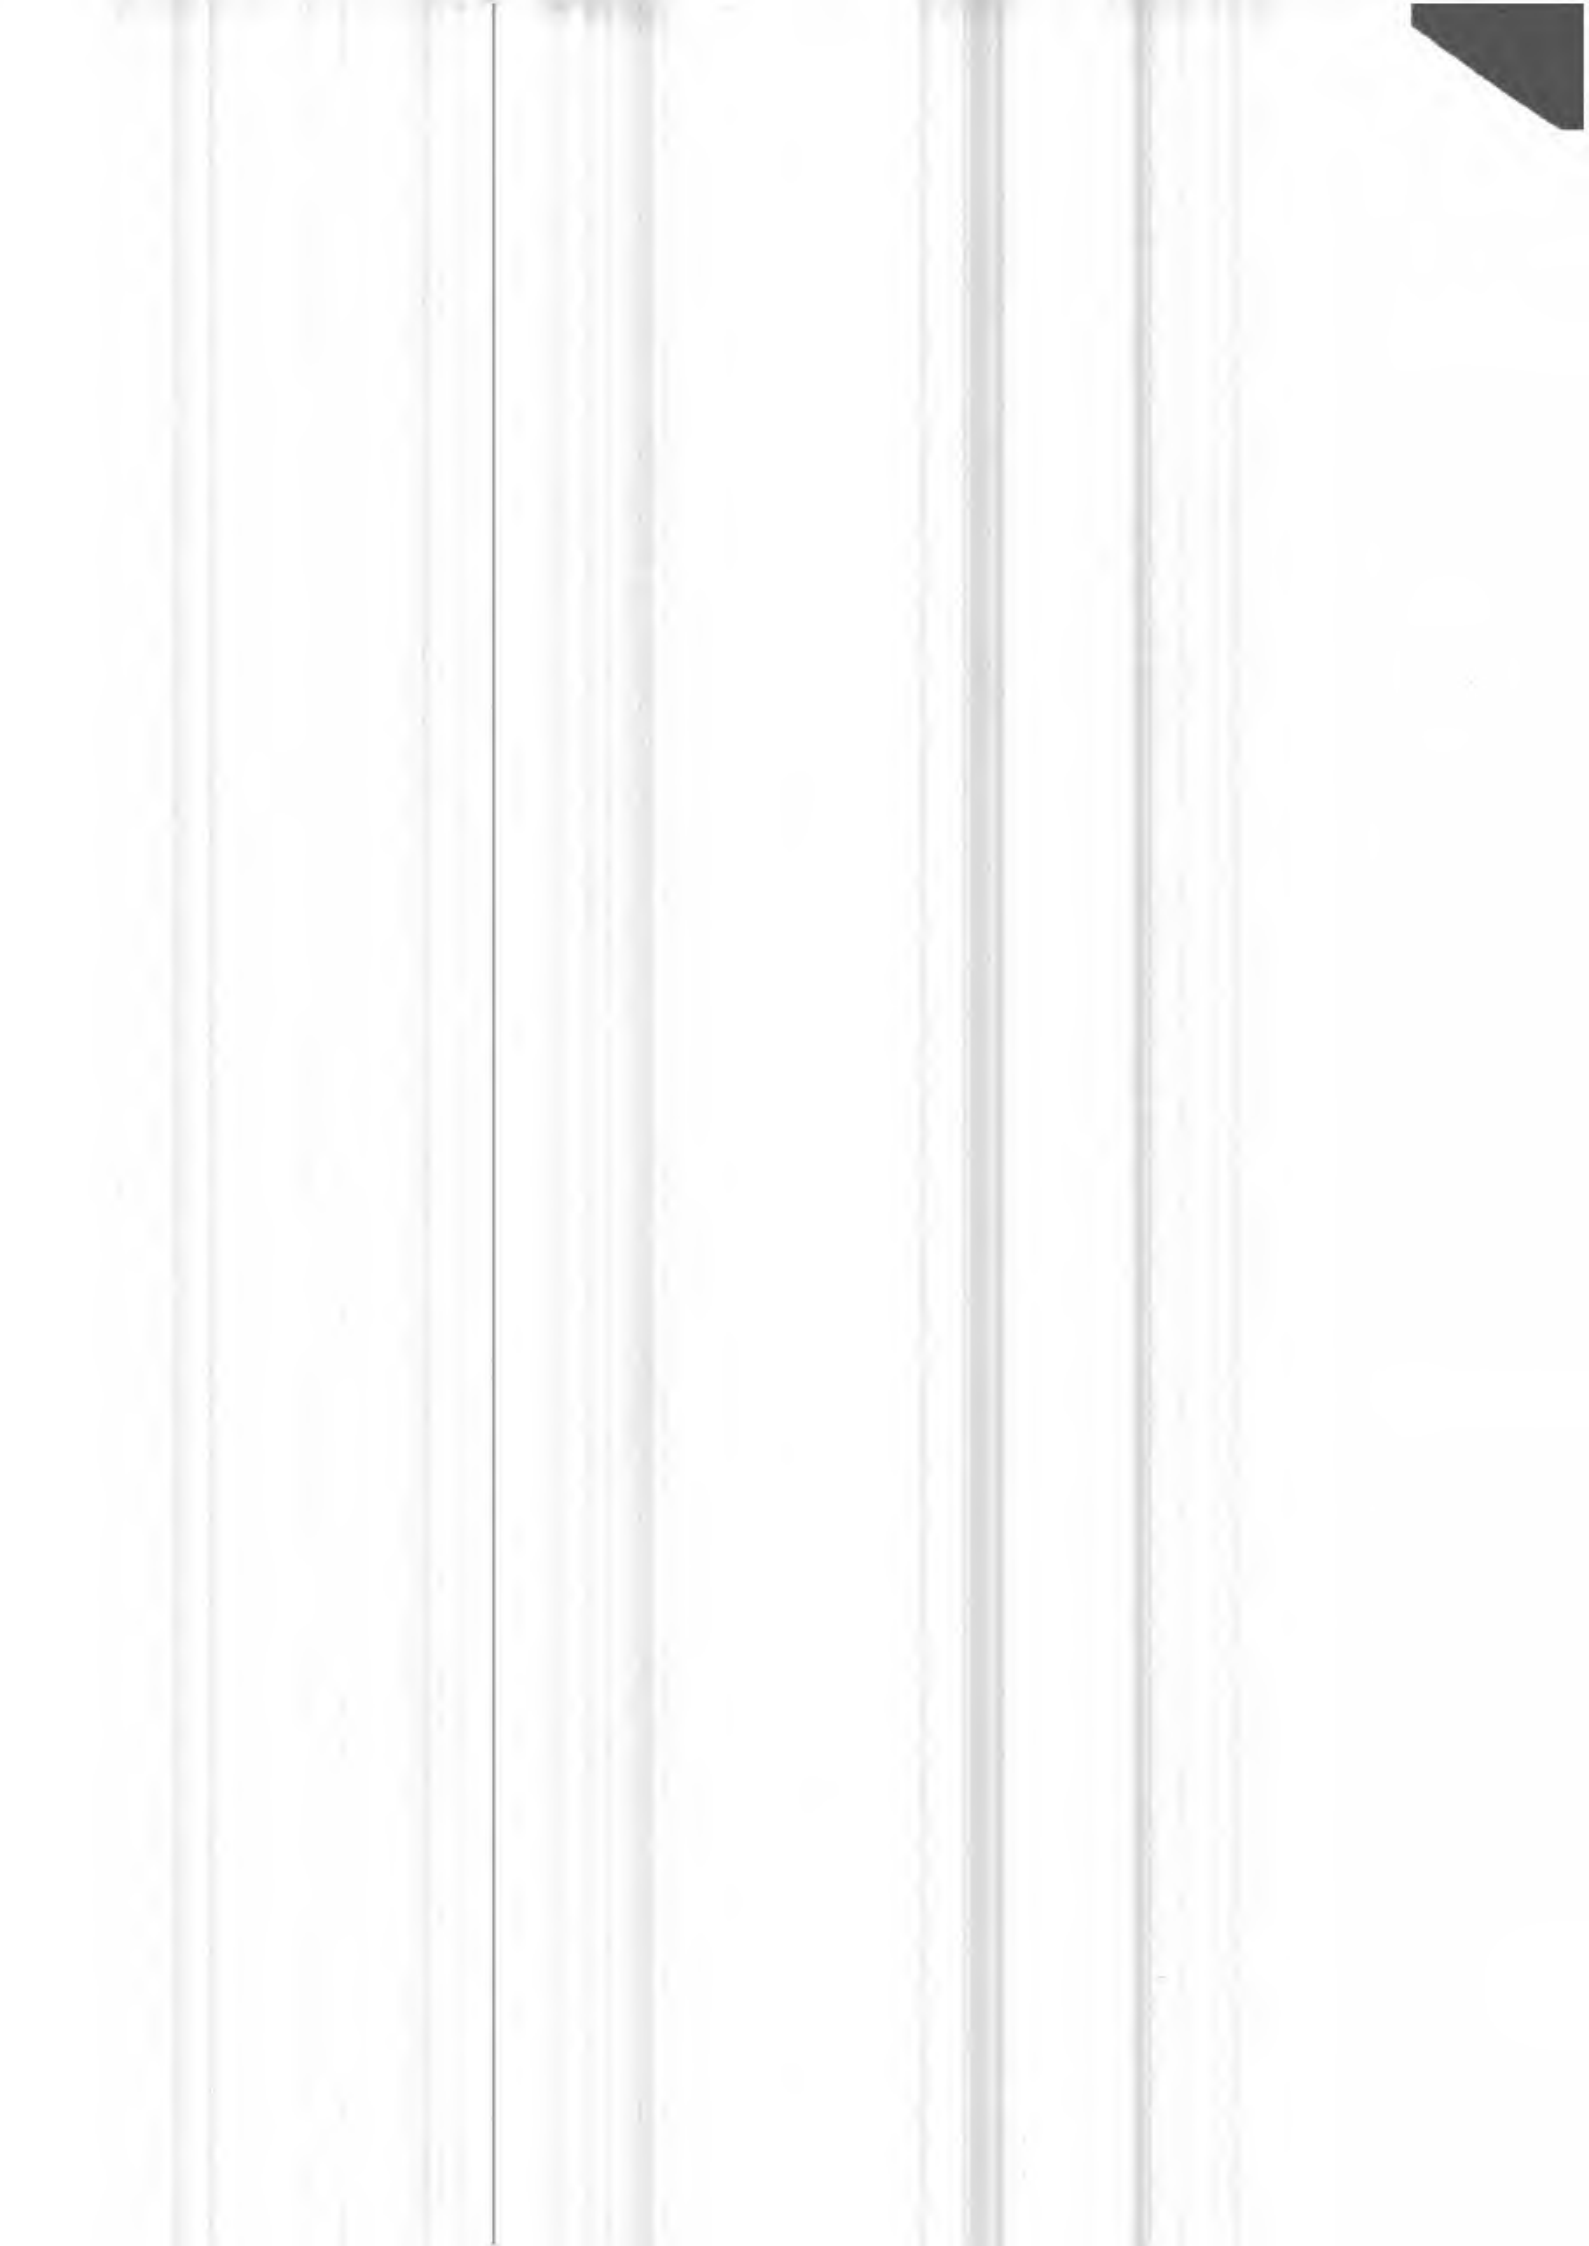

A lot of teenagers keen on playing video games. On the one hand, it really helps to decrease the cortisol level. In other words, it could help deal with stress. Not a lot of adults remember that it could be hard being a teenager. They get an abnormal amount of homework, plus in the internet teens can see peers who don't care about education and hang out or relax all day long. (Therefore, most of teenagers are green with envy or anxious.) On the other hand, video games aren't useful, they're just a waste of time. However, they have more benefits than disadvantages.

In addition to that teenagers spend <sup>quite much</sup> time listening to music. Music unites people and it's also useful to just don't care for a small period of time about all the (problems) (and) worries. Music brings you to a whole new world. (It could be different depending on which genre do you like.)

And one of the classic activities is watching movies. Unfortunately, there're many types of movies that could be interesting to teens, like history movies or movies about being popular at High School.

To sum up, teenagers have a wide range of activities to do in their free time. Even more than I stated in this article.

### Part IV. WRITING

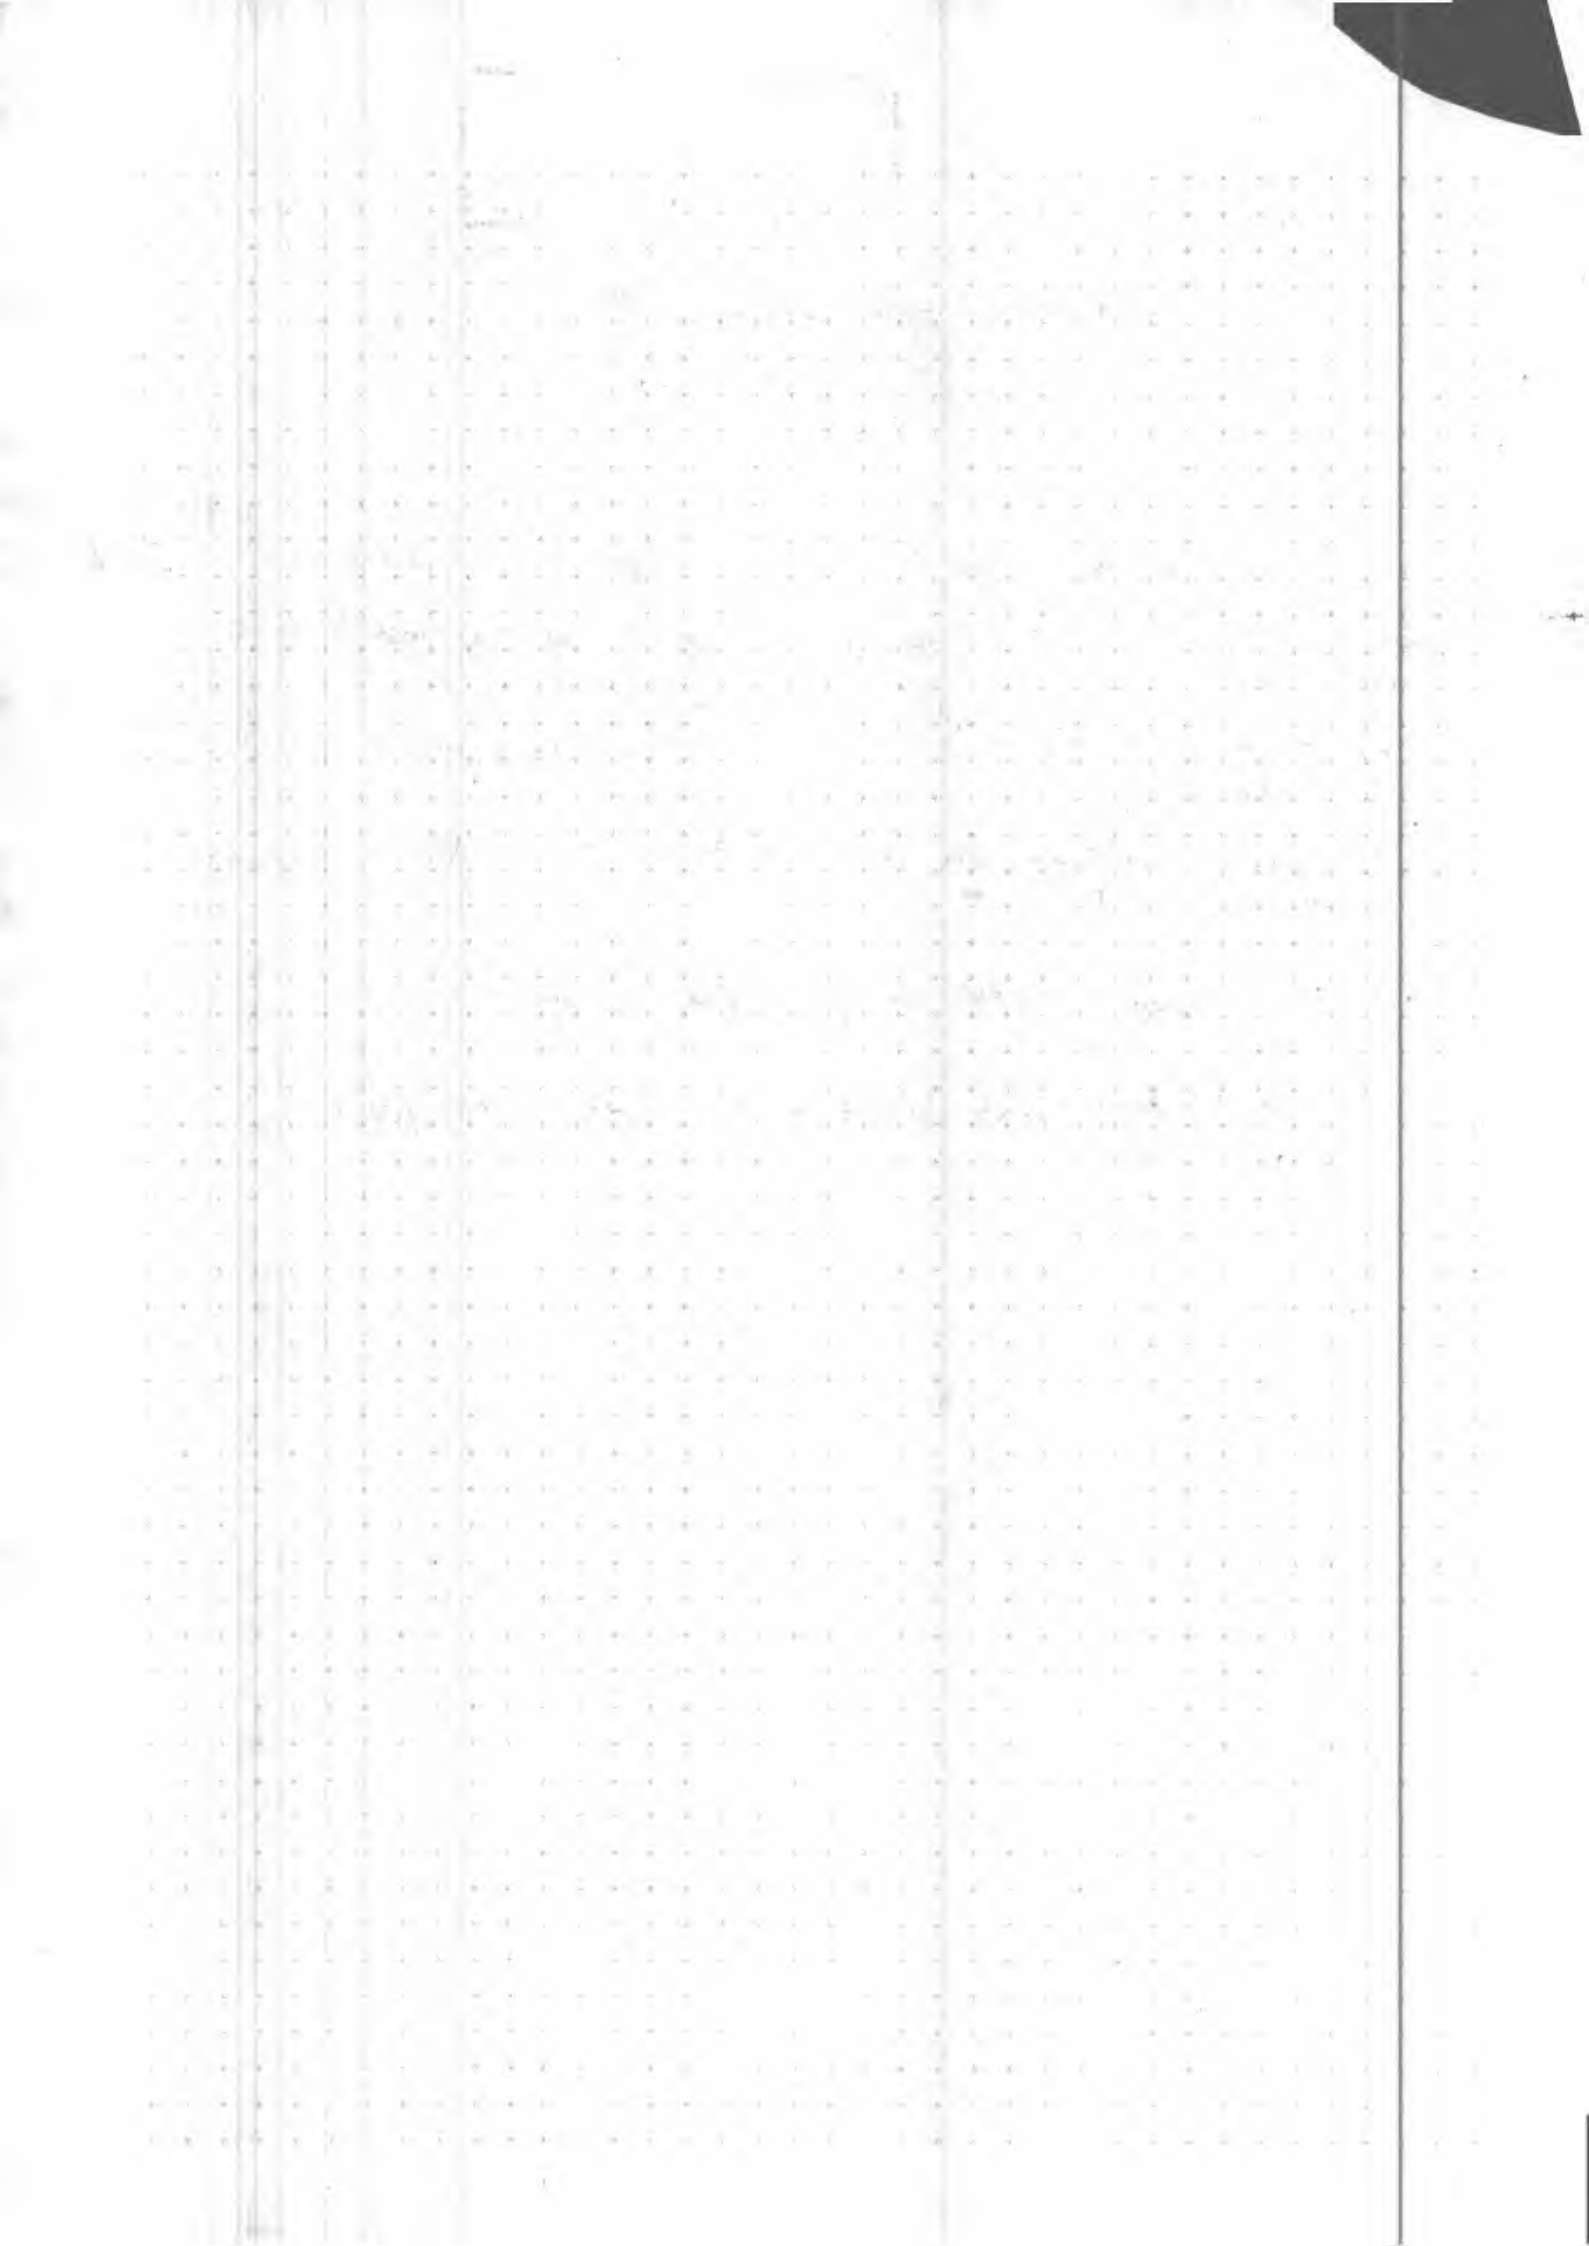

Now days there is a lot of hobbies, interesting <sup>and chances</sup> locations, opportunities and lots of different things to do. So from all of that ~~too~~ what do teenagers ~~prefer~~ like to do? Now day teens can do almost everything they like, but some teenagers are ~~often~~ usually sitting in their phones playing <sup>video</sup> games, scrolling tik tok through apps and just prefer doing nothing. Wich But A lot of other teens like doing something active and fun. For example me and my friends love having sleepovers. During them we do all sorts of <sup>things</sup> ~~stuff~~. For example watching horror movies with a crazy amount of snaks or we could go to the park buy lemonades, donats and just have a nice long talk about what happend to us. But sometimes we go shopping. Shopping with your best friend is almost as good as a birthday party. We usually visit our favourite shops and restaurants cafes. During the shopping in a clothes store we dress up in funny things from the store and take photos of ourselves us in them. Also in the winter both girls and boys are mostly obsessed with ice rinks. Even though there is not much ~~do~~ to do on a ice rink except skating in a circle teenagers sometimes gather around all together, <sup>in a</sup> and line up in a line all holding hands and the first two people are gaining speed and all of the people behinde try not to fall. And that is mostly what teenagers like to do. I like that it is really fun being a teen.

#### WHAT TEENAGERS LIKE DOING IN THEIR FREE TIME

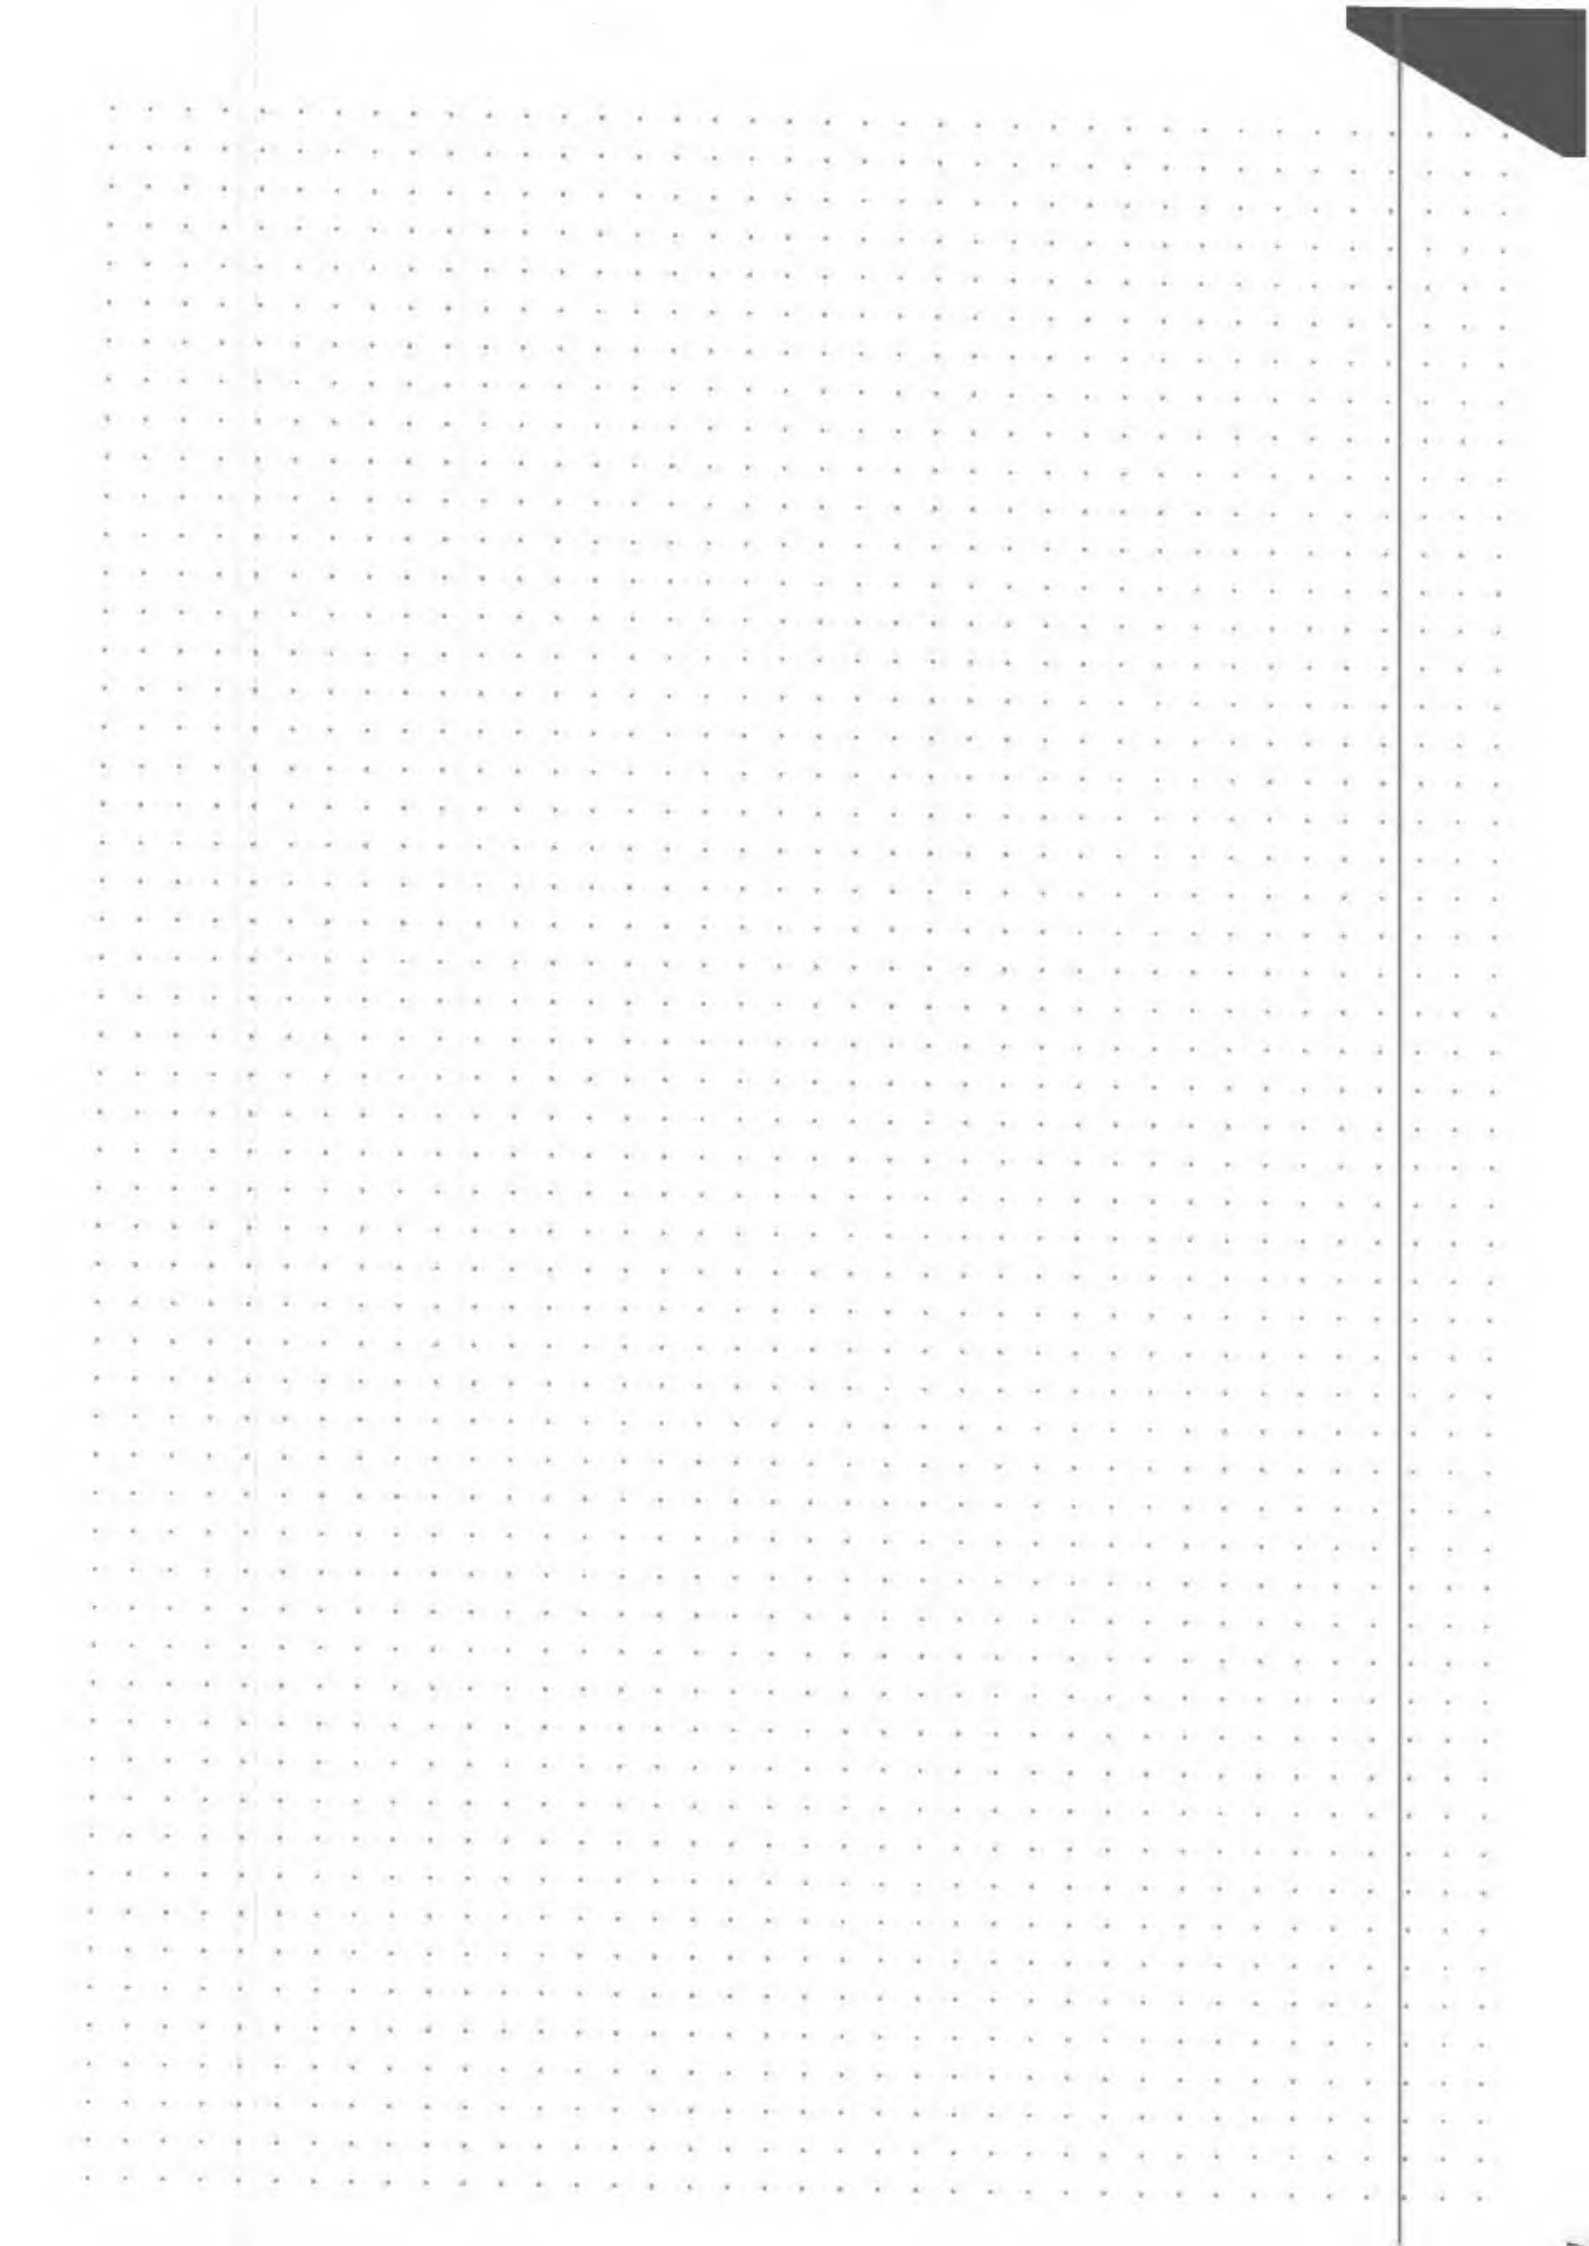

Nowadays, teenagers' personalities remain surprisingly mysterious and many people wonder what they do in their free time. Teens are highly criticised for spending their time as phone addicted couch potatoes but is it actually so?

Usually teens are divided into two groups. The first group consists of people, who think about their future and that's why they spend most of their free time attending extra curricular classes and educating themselves. Many of them also want to enter the university for free, so they solve olympiads during free time. The other group consists of life enjoyers, who usually don't care about anything except good impressions. They usually kill time by walking with friends, playing computer games or watching social media. By the way, sometimes two different types make friends and they ideally fit each other as friends. Their typical friendship is usually tight and lasts longer than any other because they help each other so that their timetables become balanced while the chance to succeed in life slightly grows.

In conclusion, it really matters how teenagers spend their free time, because it highly depends on their future career, when they are determined and work on themselves, they are more likely to benefit from the time spent, than teens who simply spend their time doing nothing. The key to success - is wise time spending during the teenage period.

#### Many Ways To Spend Free Time

"You ~~are~~ just want to play on your phone and not to study!" Have you <sup>ever</sup> heard that from your parents? Unfortunately, this situation is familiar for lots of modern teenagers.

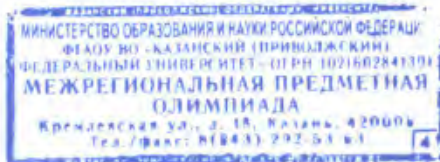

According to the research, 90% of teens have a hobby. For example dancing, reading, playing some musical instrument or doing some sport. Teenagers choose hobby according to what they are interested in. So, parents must allow their children to choose any hobby they want if it isn't dangerous or harmful. Sometimes hobby help teens to make new friends or even choose the future profession.

As for me, I knew a person who was really keen on sport. Now he is a very popular sport coach. However, hobby is not the only way to spend free time. A lot of teenagers think about their future profession from the age of 13 or 14. They can attend some extracurricular classes or study themselves. ~~At that~~ In that case, they spend most of their free time for studying.

In conclusion, most of teenagers spend their free time for very useful things. If you are a teenager's parent, don't blame your child for ~~using~~ playing on his phone. Maybe, he have just finished his homework and hobby and just want to rest a little.

#### Teenagers' Dream Leisure Time

Will you and me see eye to eye if I tell you that free time really affects on us? In our world, hustle and bustle is often around us. Keeping up with deadlines, gaining knowledges and other duties we can be feel overwhelmed because of. It's essential to give yourself at least thirty minutes of relax per day to yourself. Let me let the cat out of the bag and tell you what do teenagers like doing in their free time.

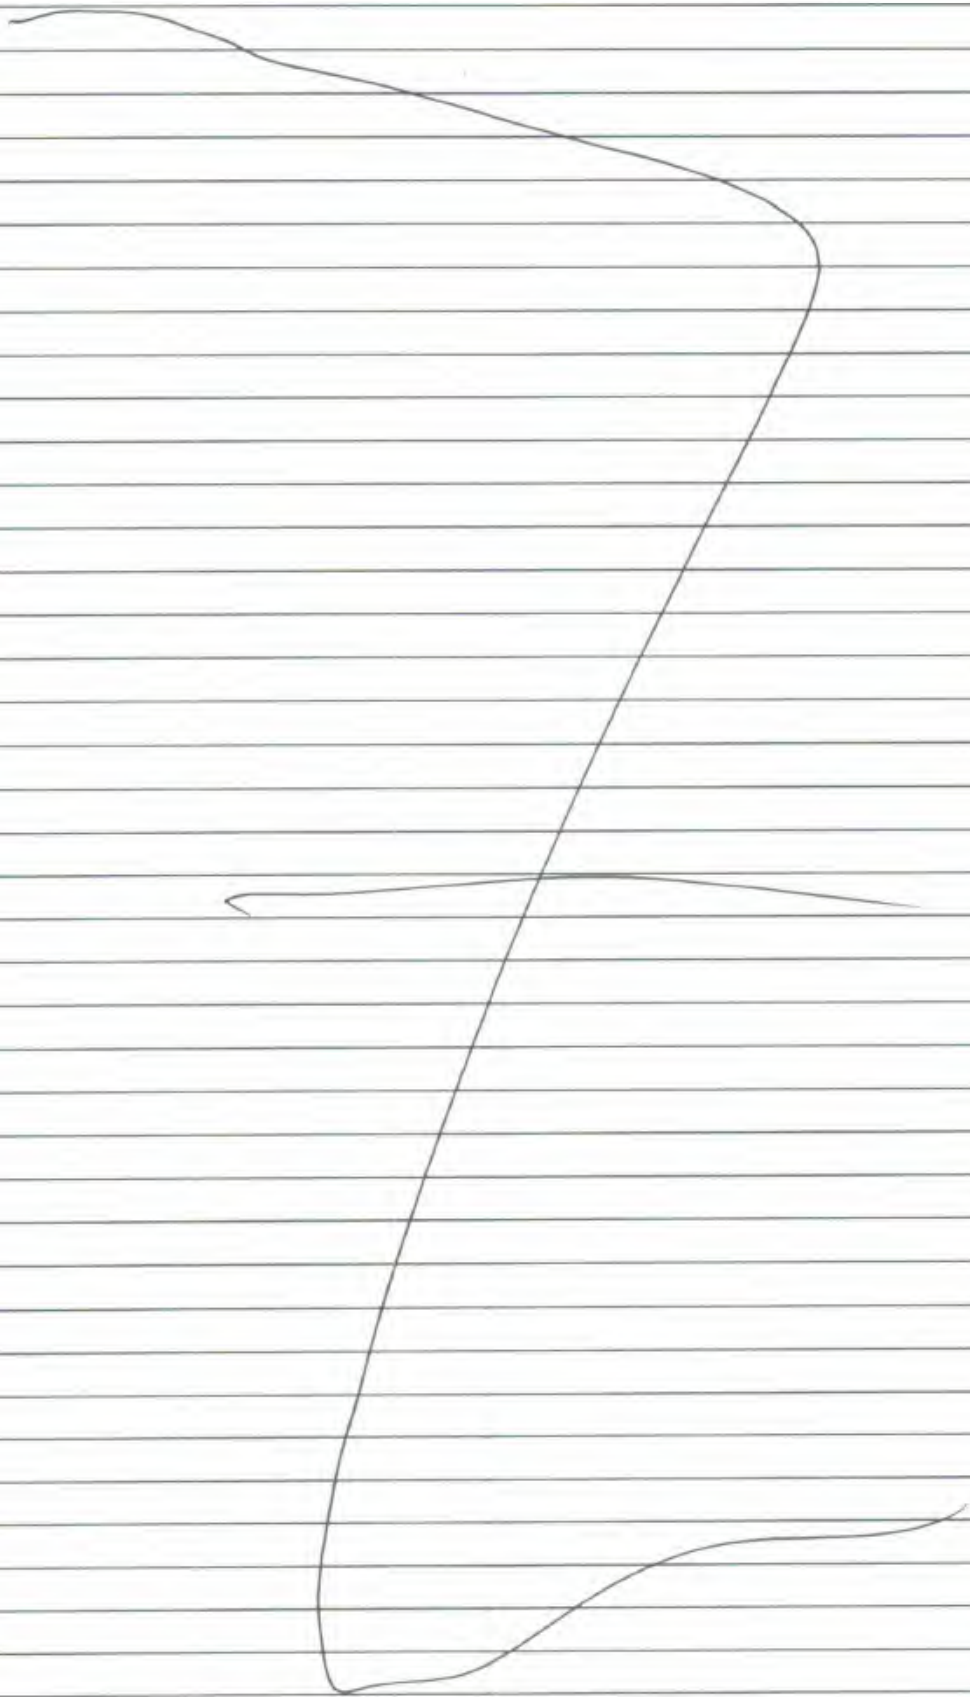

Do you see, there is a lot of variants what you can do during free time. But I believe reckon that absolutely every teenager should have the hobby. What does it mean - "hobby"? It's something that inspires you, makes your mood better and gives you the feeling of relax. ~~Stop for a minute~~

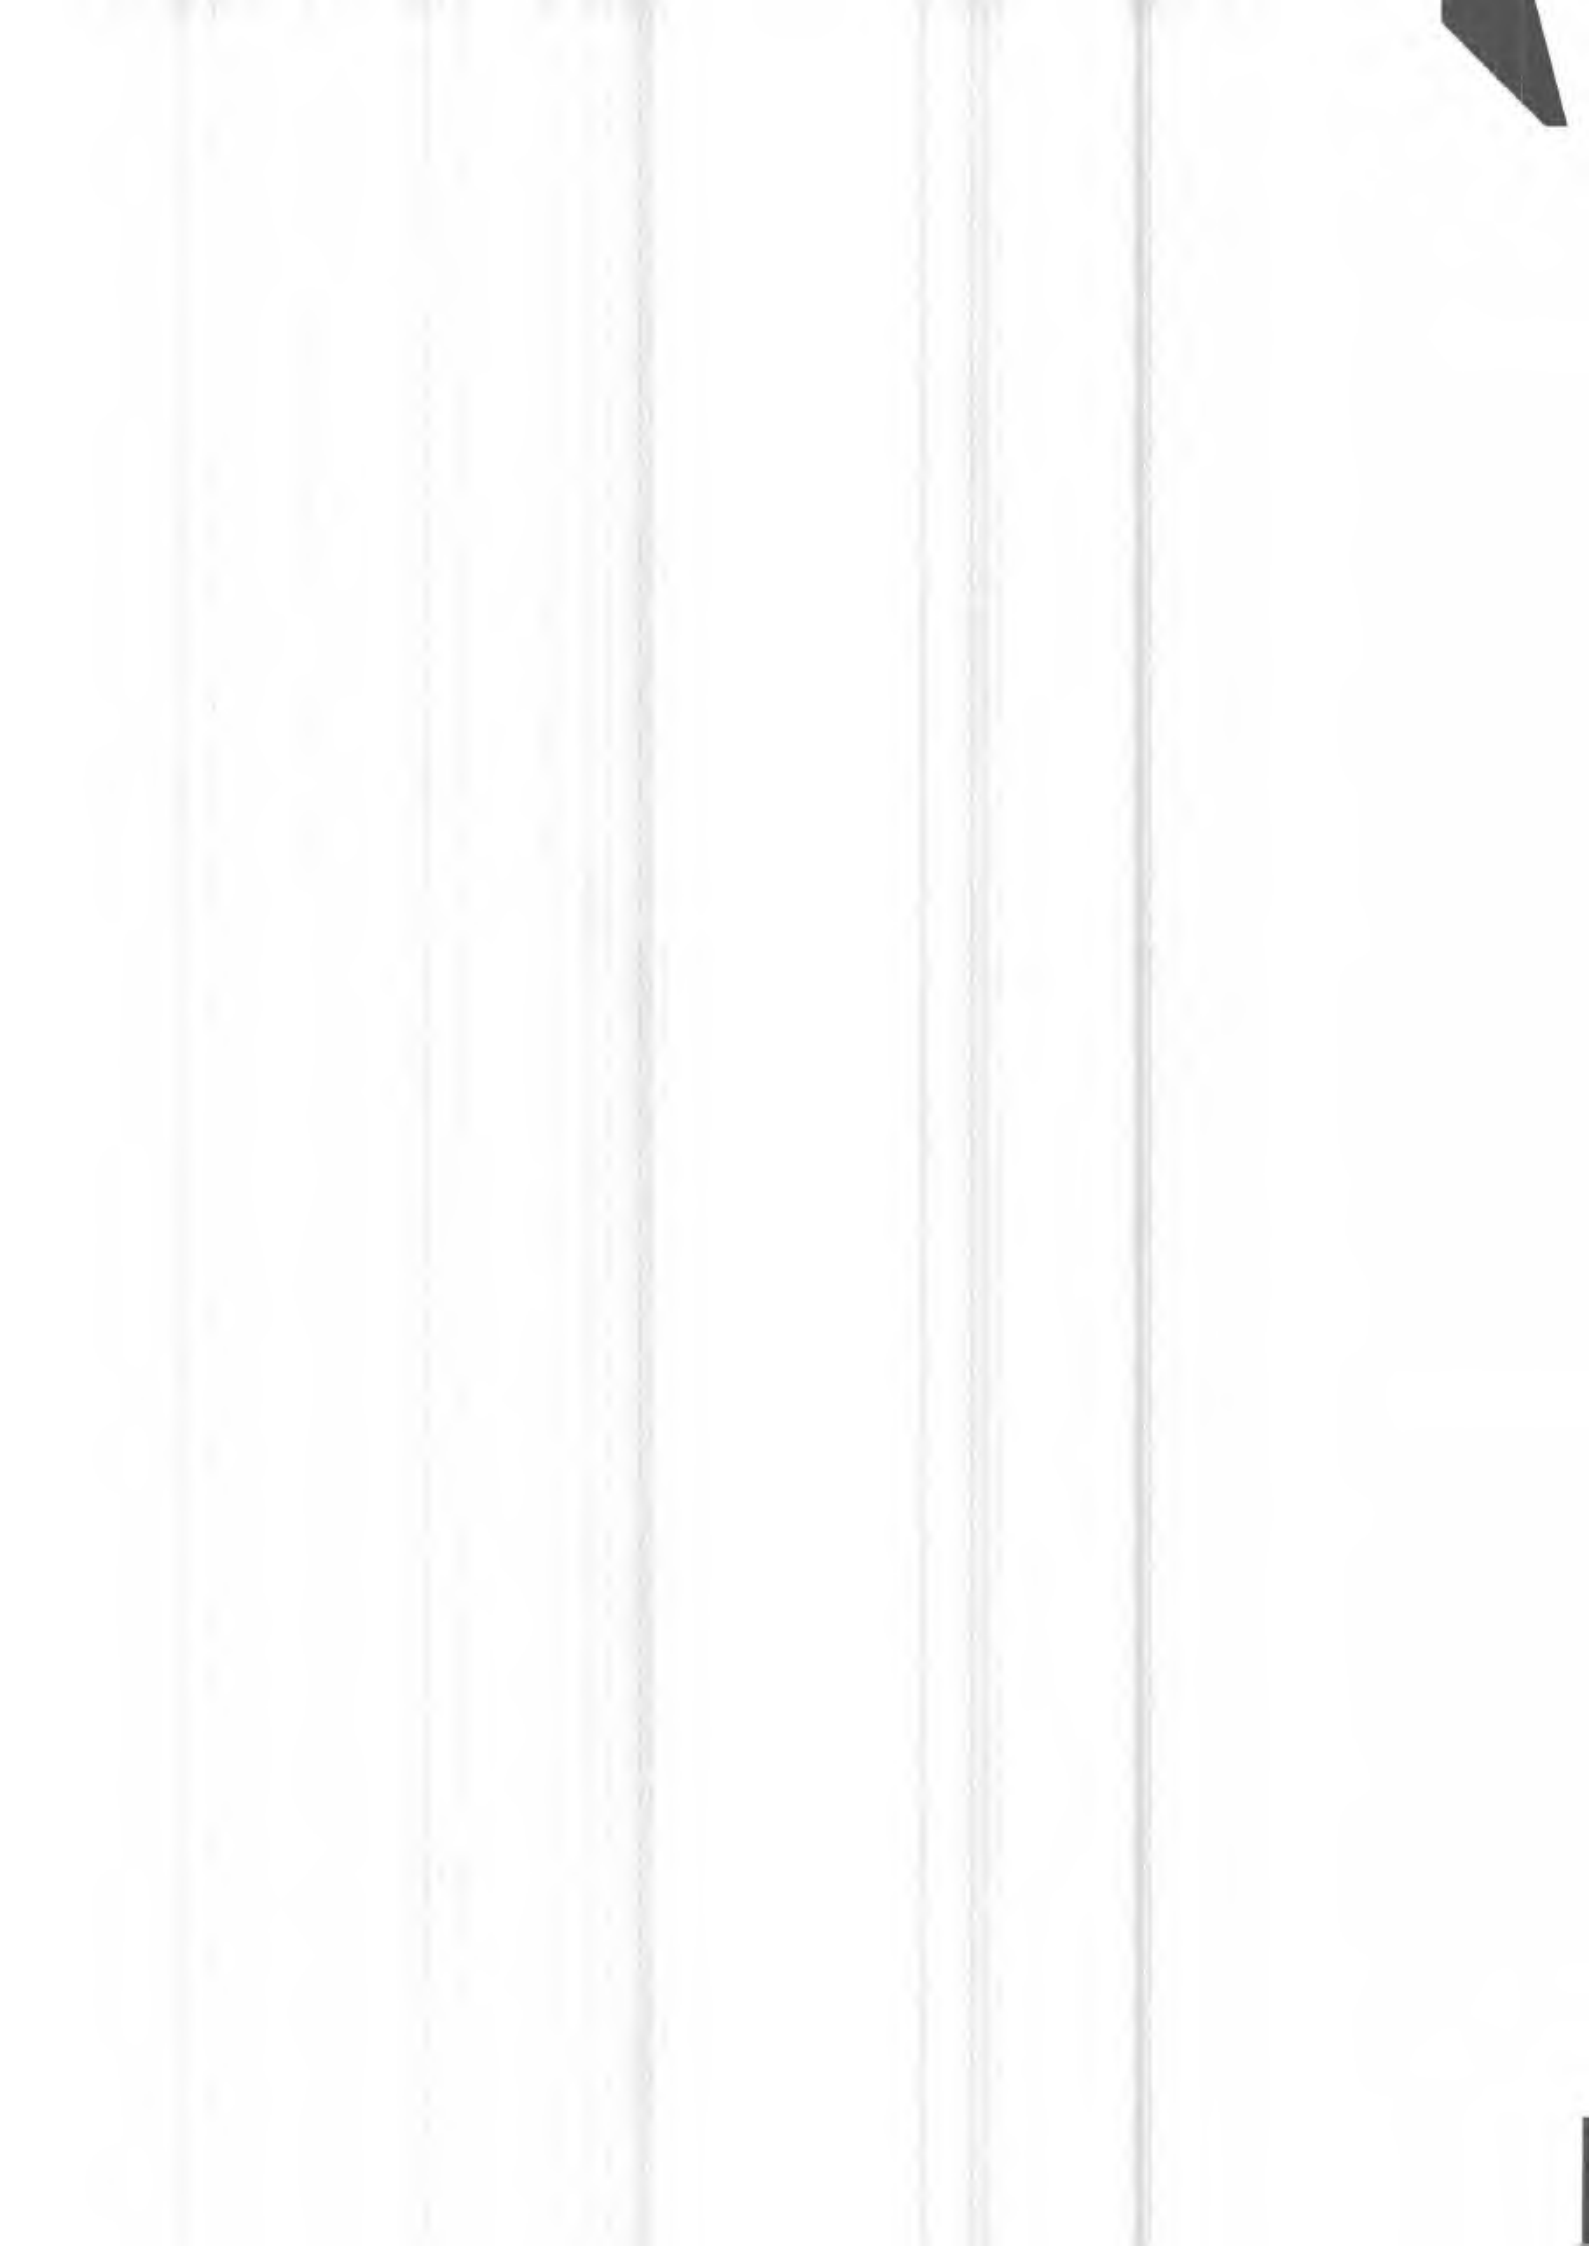

I have a lot of friends and they all have different and interesting hobbies. Let's take my bestie, Zlata, for example. She is really vibrant person with lively imagination and she really keens on ~~the~~ painting and reading. ~~I~~ ~~and~~ Zlata and me always walk together on Saturdays. I guess, it can be our common hobby. ~~I~~

For me, playing ukulele is interesting thing to do in free time. I try to become better in it from day to day. My success gives me a smile and wish to improve my skill more.

<sup>I want you to</sup> Stop for a minute and think, what's your hobby? I wish you to have a favourite deal to do in leisure time. Live with happiness and kindness!

What do teenagers do in their free time

Have you ever looked at a teenager and saw him holding a phone, ignoring the ~~other world~~ ~~and other world~~ things that are happening around him? I guess this happens ~~very~~ very often. But do teenagers really all their time with phones?

Well, ~~some~~ some of teenagers nowadays are really becoming addicted to phones. They usually don't have many friends ~~and~~ but have problems with their health. Every day, when they come from school, they spend hours without eating or sleeping, chatting with people online or playing mobile games. But most teenagers aren't like them. For example, some teens attend different clubs, for example dance club, music club or literature club. Sport is popular with teenagers too. They go to gym, sports field or just go jogging with their friends in a park. Also some of teenagers are keen on watching films and cartoons in their free time. Finally, some teenagers just meet their friend after school and walk with them around the town, or go somewhere like a shopping mall or a park.

All in all, modern teenagers nowadays have different interests and always have to do something in their free time.

Part IV. WRITING 20

Teenagers and free time.

Have you ever thought of what teenagers like doing in their free time? Nowadays, not all teenagers have a lot of free time and this free time they spend in different ways. Some teenagers like spending free time alone and some teenagers like spending free time with their friends. If teenagers want to be alone they can listen to music, read a book or just go for a walk in a park to spend time in calm atmosphere. But some teenagers choose to go for a walk with their friends, have a party or to go to the shopping centre. Sometimes teenagers don't spend free time with their friends or doing a hobby. They can help their parents with something or they can do homework. Some teenagers spend time with their family. They watch a film together, go for a walk together and lots of other interesting things they do with family. It's one of the best ways to spend your free time because we are always busy with work and school and when all family has free time, they can have a conversation, talk about problems. This is time when family members become closer to each other. All teenagers are different. All of them have different hobbies, interests. They spend their time different. The important thing is that teenagers have to understand that free time is time to relax.

Teenage free time through the years.

In this article, we'll discuss what teenagers did in their free time through the years.

In the 60's, my dad loved playing outside with his friends. The games were called "volihuska", football, hide and seek. First game was about war, so finding cool sticks that looked like a gun, then you would imagine how you were shooting with it. Football is a classic, you play with the ball, score and win, and third one is still played, like the second one. My dad also absolutely loved watching TV, and shows like Scrooge McDuck, and all the Disney world.

Now, in today's years, teens love playing PC, watching TV and playing the same street games. As one of the teens, I can tell you my favorite hobbies. I love PC, TV, playing football, scrolling Tik-Tok to lose some time, but mostly I love boxing.

In conclusion, I want to tell everyone that the only thing that has changed, is the technology. All the games are the same, but now they have more variations or better quality. The only thing that I am thinking about right now, is that what will happen in 10 years.

Part IV. WRITING

Teenager's free time.

Have you ever wondered what teenagers are doing in their free time? So today I will tell you about teenager's free time. To begin with I can say that their hobbies depend on the age of teenager and is teenager a boy or a girl.

As for boys, they like to play computer games, solve puzzles, play sport games and much much more. As for girls, they usually go for a walk, talk with friends, draw and much more.

I'm going to tell you about how I spend my free time. I'm <sup>thirteen</sup> 13 years old and my hobbies are programming, playing computer games, watching videos, playing volleyball and reading. Let me tell a little bit more about my free time.

My favourite hobby is programming, why? Well, you can create a lot of things, all that you can imagine, even your own virtual world with ~~hundreds~~ ~~and~~ your own characters. By the way, when I'm quite tired of programming, I usually call my friends to play some computer games, go for a walk to play volleyball or just read and watch some funny videos.

All in all, I wanted to say that everyone can spend his free time as he wants, everyone has his own ~~hot~~ hobbies.
