3.1: Good morning, today is January twenty first and it's about time to get ready for record temperature decrease as our ^{forecast} weather center predicted, January will be harsh. Far-Eastern cyclone from Kamchatka that caused snow accumulation up to four meters has changed its course and is expected to arrive to European region of Russia this week, bringing record frost in Moscow that was last recorded around half-century ago. In Tatarstan, citizens of Kazan will be able to experience coldness of cyclone from Thursday to Saturday with temperatures ^{range} from negative twenty-four down to negative twenty-six. Wind speed will range from ^{two} meters per second up to five meters per second. Drivers should change tires as soon as ^{it's} possible as ^{we} warned of possible ice layer forming underneath snow. Get ready and that was weather forecast for this week, with Eltar Garipov, see you next week.

NO TITLE

3.2: Hello, ^{I'm Eltar} my name is Garipov and I'm a professional basketball player in Uniks. You maybe heard about me as 7th because recently I reached world record of most ^{points} scores made among players of all countries. Many fans believe that it is great of cake to play in a team such as Uniks as basketball has less wounds caused per game than my sport, but they are wrong. It still takes responsibility and still along with hard route to reach heights to even be considered to be invited to join a ^{team} ~~team~~. Being professional gives you fame, wealth and thousands of followers, but now your life is stuck dependent on one niche and if you aren't good enough you might loose everything. I feel myself as a mice in a wheel, constantly working as a busy bee. My days consist of ten hours of sleep, ~~but~~ six hours are lost on small everyday things such as shopping, cooking and more, and only time when I actually rest is the fast at night when I'm sleeping. Despite that, I encourage young followers to try out sports themselves and play nonetheless their skills as it's fun and healthy. So don't be scared and try out new things, maybe one of them will make you the ~~best~~ easy life. Successful.

Task 3.1

Welcome to the weather forecast channel. We have prepared a forecast for tomorrow, twenty-second January, Yoshkar-Ola.

Temperatures are likely to drop by ten degrees Celcius and rise up by four degrees Celcius at about midday, then fall again by three during the period of time between 3 p.m. and 5 p.m.

As for precipitation, about 1,5 inches of snow will fall out, followed by wind from the north with the speed of about three meters per second. As well as the cold wind, you should expect a snowstorm right after midnight, so we advise you to stay home.

Thank you for your attention, we will be back with fresh weather news tomorrow. Stay safe!

Task 3.2

Life as an Athlete

Introduction!

As a very successful athlete I receive lots of questions about my life: my training, free time and so on. So, I decided to answer some of them by describing some of the aspects of my life.

Diet!

As a runner, I have to be extremely careful about what I ~~chos~~ choose to eat. I need to consume quite a number of fruit and vegetables, since they help the organism to get rid of waste, consuming brain food such as fish is also important, however drinking too many energy drinks might very well spoil my health, yet it's impossible to go on without them.

Advantages!

Despite hard training, I enjoy competing - the rush of adrenaline and dopamine is insane. Winning is always a piece of cake if I train hard enough. I also have little health problems and it's easy to find fitting clothes due to my body being quite thin.

Межрегиональная предметная олимпиада КФУ

по « Английскому языку », 8 класс,

Disadvantages

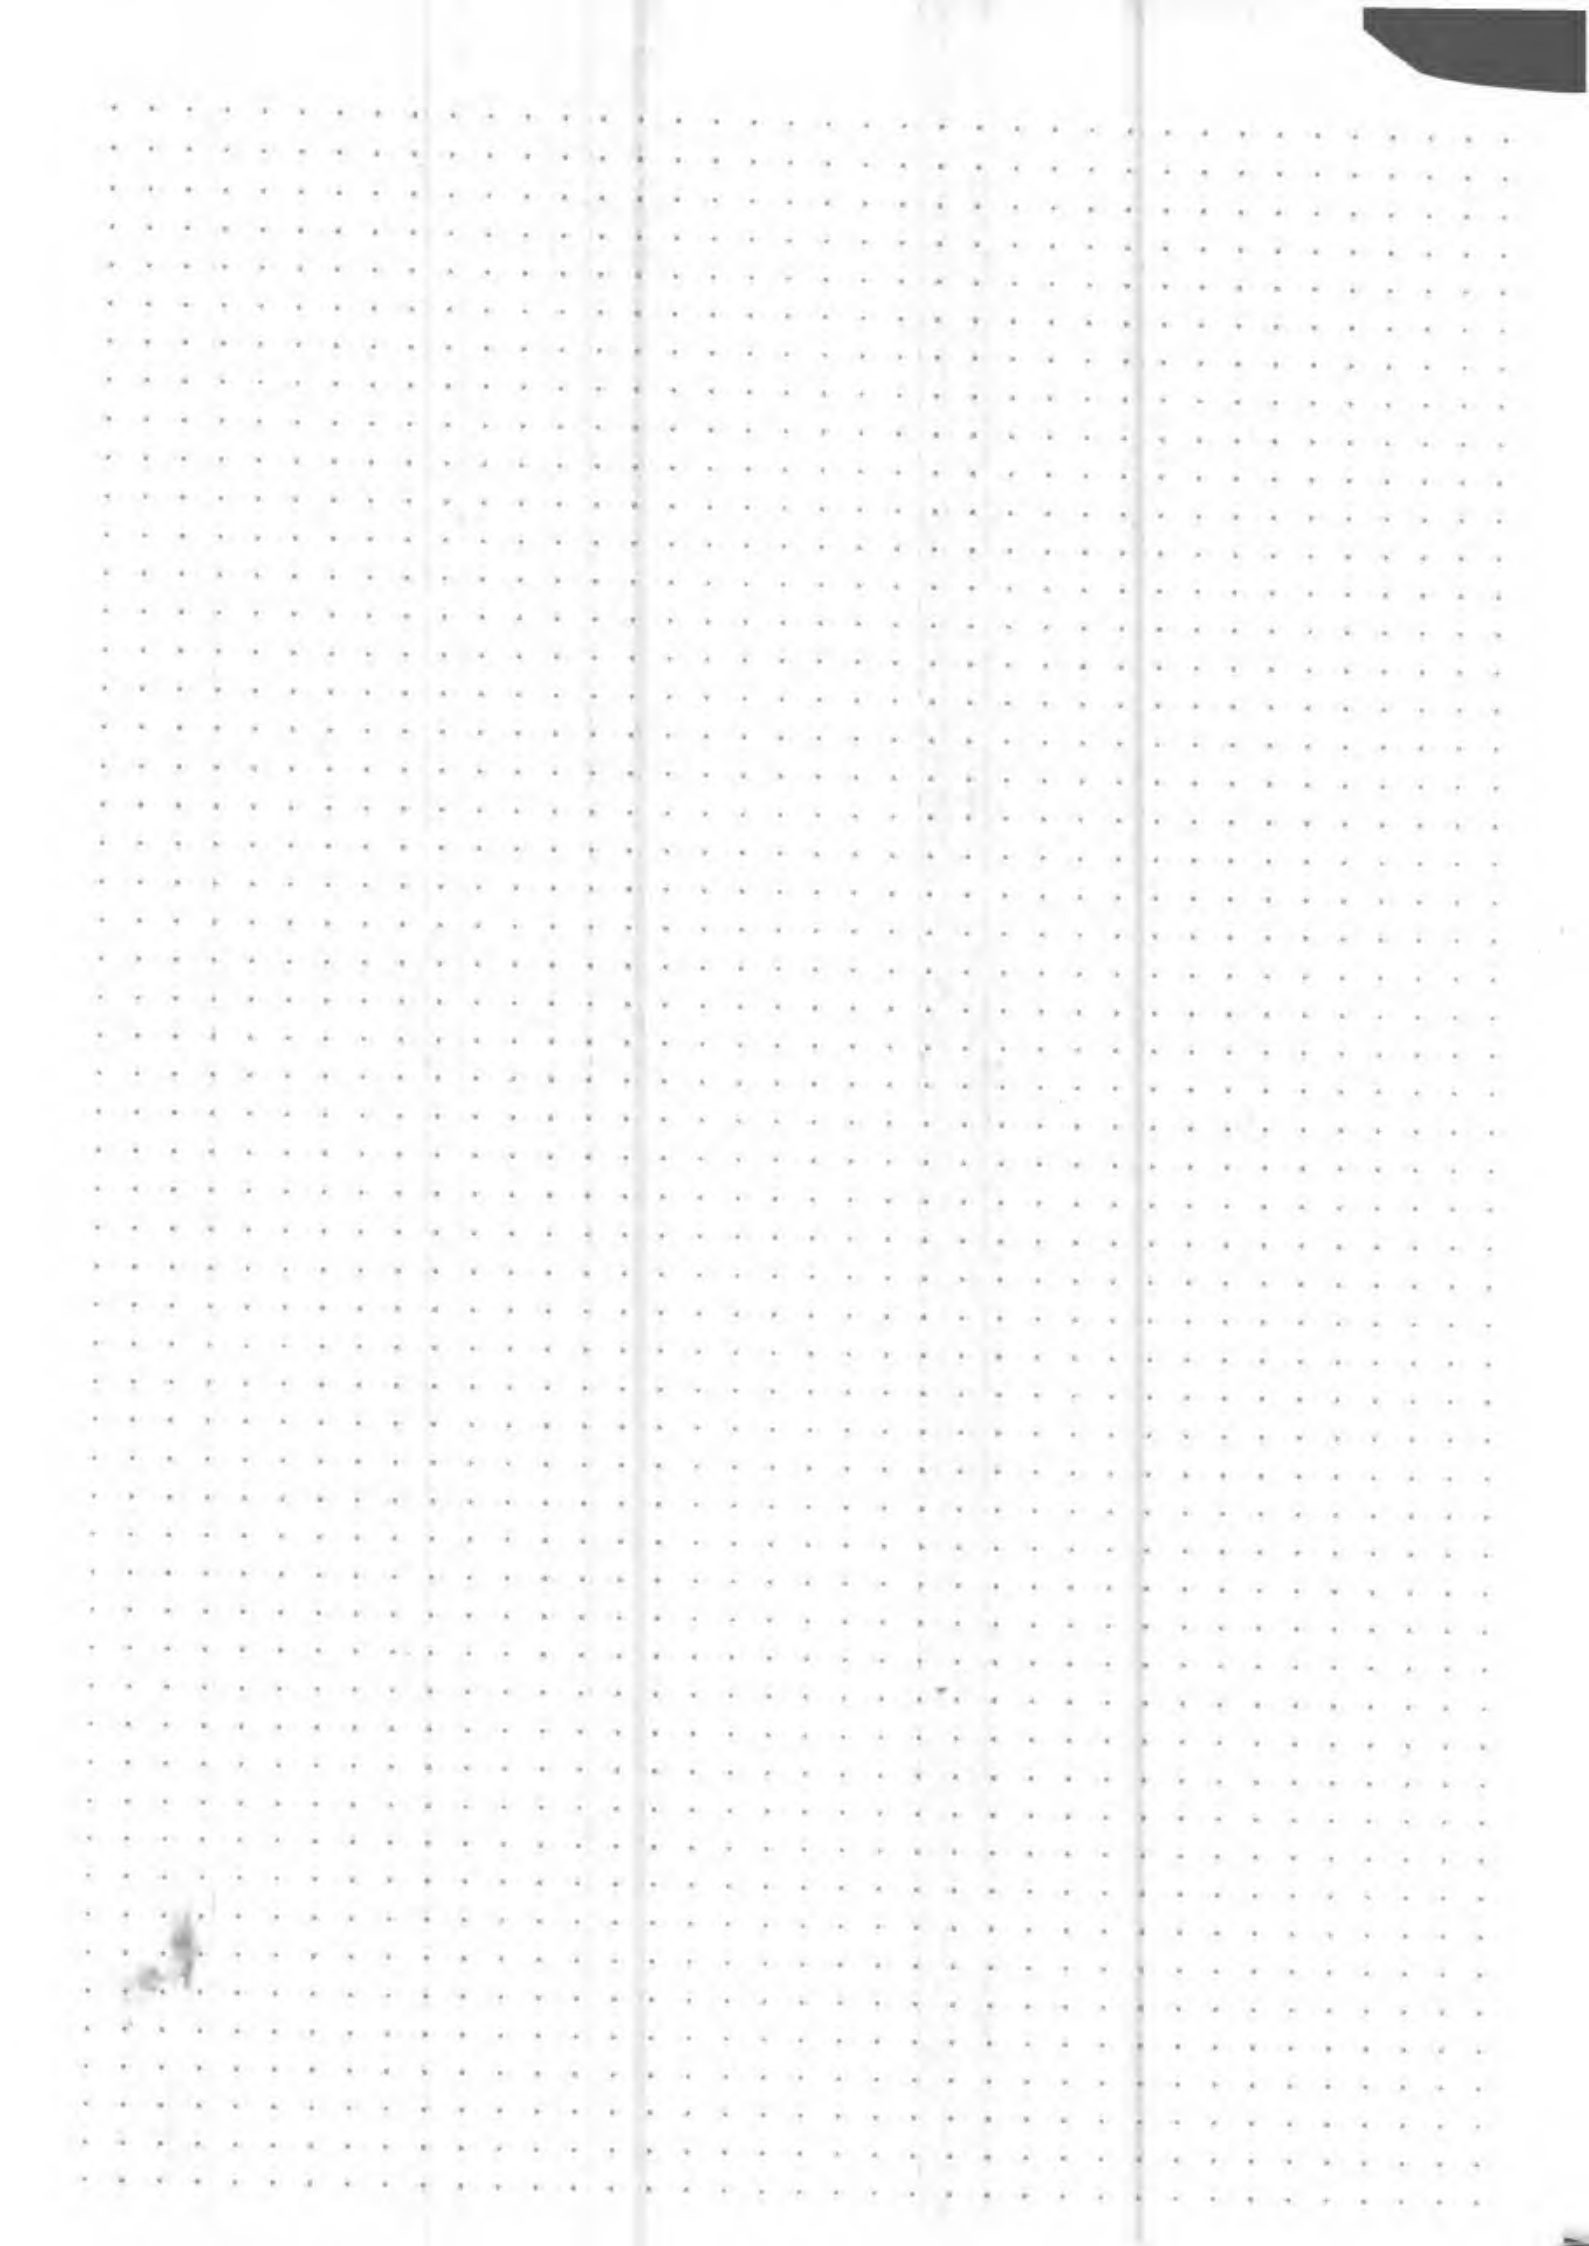

I always have to watch my diet and am not allowed to eat crisps or anything containing too much fat. I'm always as tired as a horse after a race when I come home and all I want to do then is to plop down on the couch like a cursed sack of potatoes and never get up again. I also have zero free time, so I have a hard time maintaining any types of relationships.

Conclusion

Life as an athlete is pretty hard, and if you ever dream of becoming one, you should be aware of every thing you've just read. Yet, I wish luck to every growing up athlete, never give up, my fellow sportspeople.

Part IV. WRITING

Task 4.1.

Hello everyone! I am really glad to see you here! At the moment I am going to have a small talk about the weather forecast for tomorrow.

The weather ^{is going to} will be colder than we have it today. Temperature will be about -20°C . Anyways, it is going to be really sunny without blizzard or clouds. Also, I'd like to mention about the wind. It will be about 5 m/sec. So, it is not really strong and you are going to get to your destinations easier. But, please, take precautions! As it is really icy on the roads!

By the way that's all for now. Thank you for your time!

Task 4.2.

Nowadays people have their own jobs and hobbies. So, my hobby is a volleyball. And I really love it! I guess, that's why I am a successful volleyball player. For now I am going to tell you about my life as a successful athlete.

Firstly as an sportsman, I have a lot of trainings, so that's why I have fit body. Also, I need to eat healthy food to have a lot of energy. Then I have a great number of friends, who are celebrities and of course my team. We are like a family as thick as thieves!

Anyways, sport may bring traumas if you play incorrectly. Without good technique to get injured is like a piece of cake. Then as a sportsman I am not going to play for long as I will retire after 35, and my popularity will reduce.

To sum up I want to say that it is awesome when you have your favourite activity! Please, do not be a white crow or a black sheep try new things and you will find your hobby! And step by step you will get the result!

3.1. Hello Everyone! It is daily weather forecast for tomorrow. Let's see what Mother Nature has in store for us!

Our city will see periodical snow ~~thru~~^{through} the morning clearing by afternoon. Expecting temperatures ~~is~~ are about -23°C in the morning with gusts up to 20 km/h. It is so cold, that even some schools won't work today. Afternoon is going to be better. The temperatures will rise to -21°C and will calm down. Tonight, skies will clear in most areas. Temperatures dipping to -30°C , so don't forget to close your window!

That's your forecast for ~~tomorrow~~ tomorrow! I'm wishing you a great day! Bye!

3.2. Nowadays people have some sport hobbies, because it is very important to be strong and well-build. But for me, sport is not just a hobby. It is my love and job. I am athlete. And I am extremely famous athlete. So now I am going to tell you about my life and how it is to be successful athlete.

Firstly, as a sportsman I have a lot of trainings to run like the wind; fast, easy and beautiful. Also I need to eat healthy food to have a lot of energy. Then as I am really popular, I have so many mates, who not close to me. But my real friends are my family and teammates. We are as thick as thieves! But it's good, to have a lot of influential mates, because they can help me in bad situations. Anyways, sport may bring athletes traumas if you ~~they~~ ~~move~~ move incorrectly. But sport is a battle, so sometimes it happened.

Sportmans have unwritten rules, that we will retire after 35 or 40 years old. That is really depressing for me. But I think, it will be ~~easy~~ a piece of cake to find a new job.

To sum up I want to say, that it is ~~awes~~ awesome and interesting to be famous athlete. It is important to ~~be~~ have sport in your life and have a job, that you like. And I have all in one! And you have a desire you will have got a result by doing small ~~steps~~ steps, but in the end everything will be great!

(Task 3.1) LONDON FOG

Welcome to today's Weather Forecast, Englishmen. I'm Mike Watson, your presenter for this morning. Let's not hold our horses and start with the British Forecast Broadcast. Let's take off with our grand capital - the city of London.

Unfortunately, the famous Big Ben will have been hidden up until midnight arrives, because we expect thick fog with the humidity overflowing the norms at 90 percents! On top of that, the temperature is going to be up to 30 degrees ~~in Celsius~~ in Celsius. The wind will be nowhere to be seen after 10 in the morning, appearing just subtly at 1 meter per hour. We recommend to restrain from driving today.

That's all for our Londoners this morning. But I'll see everyone else after a quick ad pause!

(Task 3.2) 124 words

Hard work pays off

Have you ever wondered as to, how an athlete spends their days? As a professional figure skater now, I too wondered that in my childhood. So I simply tried, and I promise you, I will never be the same again.

I'm Stacy Mercury, once an ordinary little girl, but nowadays I'm a proud athlete, known world-wide. But don't you get sour grapes. It's nothing like a piece of cake.

If you're a teenager, I'm sure you enjoy eating snacks and drinking soda. I wasn't allowed such pleasures. My day consisted of an early-morning session, one or two lessons at school, the other will have been constantly skipped and another training until late night. I was like a rat in a wheel, never have stopped working. And I secretly dreamt of a life similar to yours.

But that's enough disadvantages. Let's talk about the privileges instead. Firstly, figure skating offered me has offered me a pretty stable source of income: from training ~~young~~ younger skaters to giving interviews all over the world. I also developed a musician's ear.

I hope I have managed to show you my world through the eyes of an athlete. If you're willing to try too, I wish you the best of lucks!

Part IV. WRITING

4.1. Good afternoon, dear viewers. It's a traditional weather forecast at 5 p.m. Tomorrow in Moscow the temperature is going to be about minus twenty degrees Celsius during the day and will drop to minus thirty degrees Celsius at night. This anomaly was caused by an Arctic cyclone going from the North of our country. Talking about the wind, tomorrow it'll be north-west and will go on about ten meters per second. The snow will go from 3 p.m. today till 5 a.m. tomorrow. We sincerely ask you to minimize going outside or dress warmer, so that you won't get frostbite. Nowadays, the risk of them has increased. Be careful and see you tomorrow at 5 p.m.

4.2. Being a swimmer.

You've heard a lot about being a footballer, tennis or voleyball player but what about swimmers? I've been a swimmer for fifteen years now and I will share my thoughts.

The first and the best thing as for me is the fact that often you and your swimming buddies become friends forever. They've seen you in every phase. They've been all the time to support you through the win or loss.

Indeed, all sportsmen have a choice that dealing with is not a piece of cake and it'll determine your future. It's the choice between school and sport. As for me, I gave up my chance to be a doctor to become somebody, who'll help youth to find their path in sports. Sometimes I stand against my relatives' opinion and have a great pressure on me from everybody even from my own coach, who knew all my study achievements. But, to be honest, I'd still feel like a bird in the golden cage if I chose a career.

At the end, I want to say, go till you reach your dream no matter what. That's the only way you can achieve it.

№3.1. Good morning, dear ~~the~~ watchers! On the screen you can see the weather forecast for tomorrow. As you can see ~~tomorrow~~ tomorrow morning it is going to be ~~the~~ rainy and the temperature is going to be around +17 degrees, so don't forget your umbrella. In the afternoon the temperature will fall to +15 degrees, but the sun will go out of the clouds. By the evening the ~~the~~ temperature will rise to +17 degree because of the south-west wind. The rain will start again, making the possibility of flood in Sochi higher. ~~That~~ you a lucky day. That was your TV weather Forecast presenter ^{I wish} famous sportsman

№3.2. How it ~~feels~~ feels like, to be a ~~famous sportsman~~ famous sportsman?

When I was a child I always dreamt about becoming a successful and famous sportsman. And, ~~at~~ the end, my dream came true. Earlier, I used to think that being a popular sportsman is easy, but I made a mistake.

Of course, being famous has its advantages like having a lot of friends or being known by every child ~~and~~ and grown-up. If you are a famous sportsman, you are a celebrity and a role model for people. For example you wear black and they wear black. They try to be like you. Another advantage is that you have lots of money, so you are able to do anything you want: buy clothes, food or other things.

But, in fact, being famous is not that easy. It is not a piece of cake, at all. First of all, you have to train a lot, because if you have ~~so~~ many fans, you don't want them to think you are a loser.

Second, you are followed everywhere. Everyday some one comes to you in ~~the~~ the street and asks you to write an autograph. And sometimes that irritates you.

In conclusion, I'd say that being famous is like being able to fly, but having your wings tied. ~~It has its advantages and disadvantages~~

TASK 4.1

Good evening everyone!

Tomorrow, Thursday, we can expect quite varied weather conditions. In the morning there'll be scattered clouds, but they'll gradually clear up by noon.

Temperatures are expected to range between 3°C and 6°C, which is pleasantly mild for this time of the year. Winds will predominantly blow from the southwest at speeds between 10 km/h and 20 km/h.

There is an insignificant chance of precipitation during the day. However, if you're heading towards the coastal areas, make sure to grab an umbrella, as there is a slight chance of light showers in those regions.

Otherwise, enjoy the adorable weather! Stay safe and have a great great day ahead!

Being an athlete isn't just a job - it's a way of life. Everyday feels like running uphill with weights on my feet, pushing through pain that tests tests my limits, while still trying to impress the public. It's not always a piece of cake, but when ~~you~~ I cross the finish line first, I understand that my hard work paid off.

Of course, being a successful sportsman has its ups and downs. On the one hand, I guarantee myself a long life and a healthy body. My body and muscles are as hard as steel, relentless to give up even after the most intense training sessions. My popularity also has its advantages, as people respect me for my achievements and determination.

On the other hand, sometimes my muscles are screaming for rest, being on the verge of tearing apart. Nevertheless, I can't stop as I have to keep up with the expectations.

SPORTSMAN'S LIFE

Being professional popular sportsman is not a piece of cake - everyday you improve your skills, work a lot on yourself and at the same time you should be a great example for those, who are your faithful ~~friends~~ ^{fans}. That's what I do every day.

Being a successful athlete became for me a routine. Every morning I wake up, to make morning exercises and show my followers how to live "correctly". Well, there is something amazing here - I make people caring about their health and at the same time I make a huge improvement on me. However, ~~on the~~ if I go out, to do extreme sports to get an adrenaline rush, I might cause a dangerous situation if one of my fans decides to follow my example. ~~That will hurt~~ Being a popular persona means being in the limelight all the time, like the monkey in the zoo, so sometimes it feels awkward.

Part IV. WRITING

Good afternoon! It's weather forecast for

tomorrow on "Pervy Kanal".

Let's start with the western part of Russia.

At northwestern region are expected very low temperatures down to -30°C , with wile wind, approximately 20 meters per second. We strongly recommend you stay at home or wear warm clothes. At the Povolzhje and south, the weather is opposite. Citizens to have moderate temperatures near 0°C with almost no wind. The Ural is also will be touched by the strong freezes. However, Siberia will have not very low temperatures and almost no wind too.

If you are trying to go away from the freezes, we recommend you Aviasales - the place where you can buy cheap flight tickets. This is our sponsor.

N4.2. What it feels like being a successful athlete?

I can answer you. I am the top basketball player in my country. I don't just earn the money, I produce it. I gather thousand of fans in a stadium and motivate millions of people across the world that wants to be like me. A lot of fashion and luxury brands are asking me to be the symbol of their company. Of course I agree, who doesn't like money?

But there is one thing I don't like about being a superstar - is paparazzi. Do you think it is cool?

Probably yeah. But after sometime they start you annoy so much! Everytime and everywhere I

going I don't have any privacy. Even at my home.

Tens of stalkers are coming everyday to my house in order to get an autograph. I want to be a respectful person so I don't refuse to write an autograph. But the amount of them is tiring me and sometimes I don't have enough energy on basketball games. Alright, that's enough about my life!

3.1. Good morning everyone, and thanks for tuning into today's episode of the weather in our city of Kazan. Tomorrow will definitely be a harsh day for us all and difficult, with high winds and a temperature around -20°C . We ~~strongly~~ recommend everyone watching right now to stay inside your homes or wear multiple layers of clothing to not get frostbite or extreme cold. Additionally, it has been reported to us that precipitation will reach around 75%, with a high chance of a possible blizzard. During this time it is advised to be careful on the street, as visibility will become low. Thanks for watching, and I'll see you tomorrow.

3.2

Being a popular sportsman

Nowadays, being a popular sportsman is seen as one of the best achievements anybody wants to do. Today, I want to tell you about being ^{a popular sportsman} ~~popular sportsman~~. My name is Albert Sharateev, and this is my story. I was born in Kazan, where in my childhood, I was interested in football. ~~When I was young, I was very interested in football.~~ Eventually, when I had become old enough to enter professional football, I loved my job. Every day I was playing matches, completing my dream. The more I ~~was~~ competed in the leagues, the better I got and eventually I became popular. Now, some people might think that being popular is not entirely positive. ~~But~~ I agree, over my entire life, despite all of the advantages like lots of money, international recognition and fame, I haven't had a time to spend moments with my family. The elephant in the room is the fact that everywhere I go, I get recognised and I can't do anything, while it is a piece of cake to buy myself whatever I want, it sometimes can't buy happiness. It feels like I am trapped. While I, like what I do, I wouldn't recommend this job.

4.2 LIFE OF A POPULAR SPORTSMAN

Many of you may think ~~that~~ about how it feels to be a popular person, especially in sports. My name is Cristiano Ronaldo, and I'm here to tell you all the truth about it.

I bet every reader of this essay knows my name, because I am one of the most famous footballers and sportmen in the world. I was talented ^{with} ~~in~~ football since childhood and my story of ranking up to my current status is very inspiring. My life is pretty good: I am rich, loved by a lot of people from all over the world, monetising my hobby, and also I have a wife and two children. But with all that, I'm still struggling with a lot of popular people's problems. For example, ~~they~~ I can't ~~even~~ go on a walk all alone because someone can try to hurt me. I can't go somewhere where I want to, because my agency ^{doesn't allow to} ~~isn't~~ usually I'm sitting at home like a mouse in a box.

In conclusion, I can say that being a popular footballer is not as good and easy as it seems. I hope you took a piece of cake from my life and enjoyed this essay. 199 words

Life of One Popular Athlete

sp Lots of people dream about popularity, but not everybody becomes really popular. Actually, I did. I became well-known because of athletics, and I want to tell everyone about advantages and disadvantages of the life of a successful sportsman.

lex. On the one hand, it's a big advantage of being popular. There are lots of benefits, such as ability to travel to other cities and even countries. Also, I can choose by myself which competitions to go to.

lex. On the other hand, I can't ^{just} go through the young people's company because they are always asking ~~my~~ me for my sign. For addition, I can't see my family and friends as often as I want. Also, I must work like a horse because everybody waits my win, and I just can't loose because of that, so I must work harder and harder, and so on. *gr.* It's a piece of cake that I'm a bit tired of all that everyday trainings.

gr. So to conclude, I want to say that popularity of a famous sportsman isn't as cool as it could seem before. Actually, leading a lifestyle of a famous person is a bit difficult.

Task 4.1

Ladies and gentlemen! I invite you to listen to the weather forecast for tomorrow.

I warn London ^{England's} citizens about wet and foggy day. The temperature will be about seven ^{& Celsius} degrees, expecting strong rain in the evening. Pressure is ^{will be} being stable all over England and Wales, and about 790 millimeters.

The weather in Scotland will be warmer than usual, and the temperature is going to reach almost 15 degrees. Rain is not being expected, but be careful of strong winds, caused by the fluke of pressure, ^{to} up to 790 millimeters.

Surprisingly, North Ireland is having a sunny day ~~to me~~ tomorrow thanks to the southern anticyclone. The temperature will stay on the mark of fourteen - fifteen degrees for the whole day.

Thanks for your attention! That's all for now. Thanks for your attention!

Task 4.2

126W

I would like to give you a short talk about my experience of being an NBA superstar.

First of all, being a popular sportsman is not a piece of cake, as most people think. It's not about winning every tournament and giving autographs. I have to go to the trainings with my team and with my personal coach every day just to stay fit. And on my pre-game days I feel like a squirrel in the wheel. Intense trainings, then analyzing the opponents' tactics for the whole rest of the day with no free time.

Still, I ^{got} quite ^{got} used to it. In fact, I think that there are more pros than cons of being a star sportsman. It's nice to get recognized outside, to be responsible for giving showing the level my fans want to see from me ~~on the court~~. Moreover, lack of money is quite not my problem, as I'm having a long-term contracts with my team and sponsors. Finally, I isn't it pleasuring to understand that I've reached my goal and made my dreams come true?

In conclusion, I'd like to say that being a ^{sportsman} successful athlete is ~~is not~~ a constant self-perfecting process, but if you stay strong purposeful and ^{willful} ~~willful~~, it will surely worth your while.

Task 3.1 Welcome to everyone!

Now you are going to watch the TV weather forecast for tomorrow in London.

In the south and in the west of our capital it's going to snow hard with cold wind and the temperature will drop at around -10°C . However, in the east and in the north ~~and in the east~~ of London the situation will be different. It's going to be pretty warm in morning with the temperature around 0°C and later in the evening will drop at -10°C as in the west and south of London.

To conclude, the weather will be quite cold and snowy in London the capital of the Great Britain. I believe that you'll have a great day! Thanks for watching! Bye!

Task 3.2 Experience of being a popular sportsman

Nowadays, doing different sports is very popular. Some talented sportsmen participate in different tournaments and competitions. If they win or set a record, they rapidly become popular. What if I were a famous sportsman? What would I feel like?

I imagine if I were a prominent athlete, my life would become more complicated than it had been. At first I'd begin to have daily trainings. I have to admit that the life of popular sportsman is not a piece of cake. To become an efficient athlete, it means years of practising and millions attempts to reach a higher goal. Despite daily trainings, you are under public pressure. Can you imagine that every movement or activity which you do is traced by the public. For instance, if you were seen or taken a photo in inconvenient place or pose, undoubtedly, this picture is going to be seen by everyone around the world. You won't feel comfortable at all!

I consider that being a popular sportsman is more complicated than I could imagine.

Style Hello everybody, my name is Steve, and today I'm gonna be your weather forecast reporter, and I'm happy to announce, that I have some good news for tomorrow! For the next day some warming is expected, estimated temperature is reaching 20°C. The tomorrow should be as bright as day and as blue as water, with great visibility. No precipitation and slight winds are expected from south, due to the climate there, but nothing too bad. Overall, southern territories might expect more winds, and more warming, up to 25°C. At night the weather will stay the same, except the temperature - it will drop a couple degrees.

gr. That's it for today, Hope you liked it, and it was Steve, your weather forecast presenter. *121 words*

Writing 3.2

You are a popular sportsman

gr. Have you ever imagined being a popular athlete? Winning all the competitions, getting lots of trophies and money, giving autographs to your loyal fans, participating in interviews, and possibly training hard. I don't have to imagine.

My name is LeBron Durant, I'm a professional basketballer. On surface my life looks ideal. The advantages are countless - you have tons of money, trophies and free time; you have a huge loyal fanbase, from all around the world. But not everything is so simple.

gr. The first, and in my opinion the worst disadvantage is knowing. After a certain point in your career, it will take half of your life. It doesn't matter where am I, or how I feel - my day always begins with training. I literally spend half of my day playing basketball and exercising in the gym. The second disadvantage is dealing with my fans, which might sound like a piece of cake, but it's not true. Sometimes fans can get very annoying, they might follow you everytime you go outside, they might stalk you, and try to find your home, they might call your phonenumber constantly, and so much more. Overall there are many more disadvantages, such as countless injuries, unfair contracts with teams and brands, and so on. I hope now you understand, that it's not that easy.

From Russia to the NBA

Hello, dear sports lovers! You asked for this many times, so now I'm telling you my story about becoming a professional athlete.

It all started in a tiny neighborhood of Yekaterinburg. We had a hoop near the house, so I was playing a lot with my friends. I was quite big for my age so I was the most valuable player in the area. But one day we moved to the USA because my dad got rich. University, where I was studying had a very strong basketball team, which I joined. By the third month playing in highschool championship matches, I was one of the most powerful forwards in the league. I was flying like a bird, stringing like a wasp.

But everything has changed. In one game I've torn my achilles. Rehabilitation was very long and painful. But I stayed here and got even better. Then on ~~finals~~ championship finals the NBA scout has spotted me and I got drafted. Playing in NBA wasn't a piece of cake at all, but I received 3 rings and 2 MVP Awards.

Now I'm retired and happy to teach young stars how to play basketball. I hope this story will motivate you and you won't let it up. Good luck and stay hard!

4.2. Being a famous basketball player.

I am Joshua Kim, one of the most famous basketball players in the world. You might think it is awesome to live a life like mine. However, to be honest, there are not only benefits but also drawbacks. I want to tell you about pros and cons of being a popular sportsman.

Let's start with disadvantages. One of the things I hate the most are paparazzi. They are literally everywhere. When I leave trying to hide from all the cameras I feel like a cat who secretly steals food from the dining table. Another thing I hate is making stupid mistakes. Fans see videos of me doing something wrong by accident and start criticising me in comments.

Now I want to talk about advantages. People admire me for things that are a piece of cake to me. For instance, some fans find dribbling hard even though it is easy for me. I also like receiving gifts from people who watch my games. It is a nice bonus from fame.

To conclude, being a popular basketball player is not as fun as it may seem to be. Fame always has good and bad sides

Good evening, ladies and gentlemen! I am Sue North, your favourite TV Weather Forecast presenter. Tomorrow is January 22 and I want to tell you about the forecast for our city.

My tip for you is to put on warm sweaters and scarfs as it's minus 30 degrees Celcius! Make sure to apply lip balm before going outside in order to prevent your lips from drying.

Bad news: it's going to be windy tomorrow. This is why you should have a protein breakfast so you are energized enough.

Talking about precipitation, it is going to snow. If you enjoy outdoor winter activities try building a snowman.

This is was the forecast for tomorrow. See you later!

4.1. Good morning, everyone! Today I'm going to give a talk about the weather in the most popular cities in Russia.

Firstly, I'll tell about the capital of Russia - Moscow. Today's weather in Moscow is great for ice-skating. It's -15°C and sunny, but also there is a fast wind about 20m/s , so don't forget to wear warm clothes!

Secondly, the weather in Saint Petersburg isn't as good as in Moscow. ~~Today~~ Today is -13°C with lots of snow and rain, but the wind's speed is only 3m/s . It's a great time to visit some museums or just to stay at home with family!

Well, that's all for today's Weather Forecast. Thank you for watching us. Enjoy your time!

116w

4.2. I'm popular, but I'm alone.

To begin with, I started doing sports 13 years ago and now I'm 18. It was a long, hard way ~~with~~ with lots of wins and ~~loses~~ loses, but now I can't live without sports. You know, I'm a basketball player in Russia and I'm the most popular younger player, who became so popular! I have a lot of fans around the world. Now basketball is a part of my life and sometimes playing is a piece of cake for me! Everyone dream about being my friends.

Unfortunately, there are so many disadvantages of being a well-known sportsman. For example, a lot of people wanna be my friends ~~with~~ only because I'm popular. Nobody wants to be a real friend of mine, so I'm staying alone for a long time. I'm like a moon - there are so many stars and planets around me, but I'm staying without their warm because they're all so out-of-my-way.

3.1. Right now it's time for the daily forecast. Tomorrow in London it will be 10°C. Don't forget an umbrella as heavy rain will start in the morning and continue for the next 24 hours. Luckily for you, no wind is expected. In Moscow it will be 20°C and it will rain cats and dogs. Scientists advise you to rather use public transport than private cars, because of heavy traffic and high risks of car crashes. In Berlin the first half of the day will be sunny and hot: around 30°C, but then the temperature will decrease rapidly. Prepare for ~~big~~ rain and strong wind. All in all, don't forget to bring an umbrella with you as the weather is getting worse in most of the countries.

3.2. Fans in my life

Every morning I wake up at 6 a.m. Then I have a nutritious breakfast. As an athlete, I need to eat eggs and meat to be strong. After that I go to the gym. I train everyday and it's the reason I'm so successful. I do many ~~exercises~~ exercises, for example jumping and running on a treadmill. But my favourite one ~~is~~ is doing push-ups. Some people can't do them, but for me it's a piece of cake. Since I'm popular, paparazzi are waiting for me outside the gym all the time. But who month ago I hired two bodyguards who don't let them get in the way. But one day something went wrong. Both of my bodyguards caught a flu, so I was all alone. When I was leaving the gym, I saw a crowd of fans! I really love my fans, but it was too unexpected. When they noticed me, they ran towards me, screaming my name, taking photos and asking for an ~~autograph~~ selfie. I felt like a piece of meat, that was ^{worn} worn apart by ~~the~~ foxes. I hate when people act like wild animals. It's so frustrating!

Task 4.1

Good evening! This is our weather forecast for tomorrow.

In Moscow the temperature will fall down to -25°C , the wind will be really strong. Drivers, do not forget to change your tyres! All roads will be icy. In Ufa it won't be so freezing, it will be only -15°C . There won't be any wind, but do not relax! It will be extremely snowy! In Kazan it will be -5°C . There will be windy, but there won't be any snow. So it will be great to go ice skating.

That is all for our weather forecast. See you tomorrow and have a good day!

Task 4.2

Hello! ~~I'm a suc-~~

Being a successful athlete

Hello! I am a successful athlete. Today I'm going to tell you about all advantages and disadvantages of being popular. Let's start with good facts. Firstly, I earn a lot of money. I can allow myself lots of expensive things. Secondly, I really love doing sports, so now I'm working on my dream job. Finally, when I was at school, I used to receive only good marks on PE lessons. It isn't such an important thing, but it is still a small bonus.

Now let's talk about bad things. Firstly, I have no time for myself. I can't be alone even in the toilet! My fans are everywhere! And some of them are not normal! Sometimes I think that they want to eat me! Secondly, everyone thinks that it is a piece of cake to become a good sportsman. This isn't true. I was training since my childhood. While other kids were playing, I was doing sports everyday. Finally, I don't have real friends. Almost everybody wants to be with me because of my money. This is an awful feeling.

In conclusion, I'd like to say that my job has both advantages and disadvantages.

Task 4.1.

Tomorrow

- Good morning dear Listeners! Today, on the 26th of December, we are to observe one of the most freezing and windy days of the entire year in London. Temperatures are to stay stable the whole day - it's -17°C outside and -21°C in some northwestern parts of England. The wind blows from the North, right from the Pennines and goes straightly to the South England. Heavy snowfall is predicted all over the United Kingdom, making it the most snowy day of the year. Show your full preparedness and carefulness by having a scarf or a coat on when outside. That was the Weather Podcast on BBC by William Brown. Stay safe!

Task 4.2.

NOW, THE BALL IS IN YOUR COURT, ~~WHAT~~

There are not so many people out here who actually like sports. ~~They are not really bound to watch it when they have nothing to see on TV.~~ Not only do these people not observe sportsmen's feelings during the match but also ~~have~~ don't have the foggiest idea about what it is like to feel that heavy burden on your shoulders when millions of spectators' eyes are directed straightly to you. So, let's take a glance over my experience of being an athlete - not so popular, but having a great deal of knowledge to share.

It's always, ~~always~~ the fans who are the biggest controversy in your career. ~~They can follow you to the threshold of your own home.~~ In fact, you do receive high appreciation and gratitude for the played game. Moreover, it's indeed touching to ~~hear~~ see yourself as a true role model for the growing generation of sports lovers. However, with the fans exist the haters. ~~Those are not willing to see you home they portray you as the worst playing and the most untalented sportsman.~~

HELLO BEAR ~~WATCHERS~~ AND WELCOME to our

TV Weather Forecast channel! Today, I am going to tell you about the weather tomorrow and other stuff. The weather today was kinda hot, right? It was 26° , but for the whole next week including tomorrow everything will change.

Today is Monday, but in the next day it will be 1° , Wednesday - -1° , Thursday - -2° , Friday - 0° and Saturday + Sunday - -5° . I know this information may shock all of you. Also the wind will be very fast and cold these days, around 34-35 km per hour! This is an anomaly and scientists don't know why is this even happening. We can suppose that this is wind's from Antarctica fault, but we are still investigating this case. Stay at home and close all the doors and windows or you might be in danger!

Ice Skater.

I am a worldwide famous Ice skater and you may think: "WOW! You are so famous, a lot of people love you and this sport is very fun too! Ahh, I wish I'd be you!"

But those people are so wrong because actually this is very hard to be a professional figure skater and here's all the disadvantages of being a figure skater: at first, I don't have a lot of free time. After school I go to my coach for a training, which is 6 hours and I get so tired, after that I go home, do my homework and I go to my bed, after I wake up for school I have to repeat all of this over and over again. Yeah, maybe I participate in a lot of Ice shows and you think I get money from that, that is actually true but my strict parents just steal this money to themselves and I don't even get a piece of cake from that and I can't do anything with it because I am not 18. There are still some advantages because I have a really big, kind and lovely fanbase that supports me and this is the reason I still didn't quit this sport!

4.1. You are watching the weather forecast for the twenty-eighth of August. The weather in Moscow is getting worse every day, what marks the beginning of the autumn season. Tomorrow is believed to be the coldest day of this week. The temperature will reach plus eight degrees. This is surprisingly low according to how scorchingly hot it was yesterday. We expect very strong wind, it is going to rain heavily. Such weather is not typical for the Moscow climate. We are getting forward to getting some new information about this unexpected change. Thank you for your attention.

Experience of being famous

Hello. My name is Tom Hawkins. I am an athlete.

I used to watch different TV shows ~~with~~ with my favourite sportsmen and I have always wanted to be one of them. My dream came true, but it was not as easy as it might seem to be.

In my opinion, the hardest part of being famous is attending events even if you don't want to. You may think it is a piece of cake, but it is not. I feel exhausted after every single interview.

Besides that, I have to be fit as fiddle all the time. I must eat a balanced diet and lead a healthy lifestyle, because people look up to me and I have to live up to their's expectations.

There is only one reason why I can cope with all the disadvantages. I do what I love. I will never give up. For me sport is a game. If I fail, I try again until I succeed.

Thank you for your attention. I hope you all will find a job you will enjoy. It is important.

MY STORY!!

Q.2

I'm a popular sportsman. How did I come ^{to} ~~for~~ this greatful name? Oh, it was a piece of cake! Let me tell you my story ~~of becoming a successful athlete.~~

From the time of when I can remember my lifestory, I was always been in move. I've had my first step in age of one, maybe even a little younger. And from that step I've started my sportlife. In the age of four my mom has gave me to a football lessons ~~for~~ ^{with} the best ~~tra~~-tutor. I'm so happy about ~~the thing that~~, my mother always takes care of me, even now. Thanks to her a lot.

So, it came to my ten years. It's time to make my parents and all ~~my~~ city where I live to be proud of me! Why? Because it was a day of The Teens Football Match. And it was my day. I ~~took~~ ^{get into} a name ~~of~~ one of the most talented kids in sport, not even in my city, in my country! It was my biggest dream.

Now I'm 24 and I'm a popular sportsman, and I think what young me would be so proud and happy of my achivments. But nothing is free and so rainbow-colored. ~~I have made mistakes many times.~~ But I'm not gonna give up! ~~It was my dream,~~ life is a highway. ~~Many people loves me and many people trying to be me.~~ So, I'm gonna tell you - never give up and always walk forward.
