**Europe Natural Features**

Europe is one of the seven continents. The other ones are North America, South America, Africa, Asia, Australia, and Antarctica. A continent is a group of countries in the same area of the planet. Countries in Europe include the United Kingdom, France, Holland, and many others. All over Europe there are plenty of examples of human and physical landmarks. Some of the most famous physical landmarks are mentioned below.

Mighty Mountains

In Greek mythology, Mount Olympus was the home of the gods and the throne of Zeus, the head god. It is the highest mountain in Greece, reaching 2,917 metres tall. You can usually see the mountain covered in snow for seven months every year between November and May, the wettest season. The rain is caused by a thick blanket of clouds that cover part of the mountain.

Violent Volcano

Mount Vesuvius is an active volcano found in Italy, only nine miles from the city of Naples. It has erupted many times, most recently in 1944. The most violent eruption recorded happened in 79 A.D. killing thousands of people and completely burying the nearby cities of Pompeii and Herculaneum.

Raging Rhine

The Rhine is one of the longest and most important rivers in Europe. It is over 1,232 km long. Its source is in Switzerland and continues to flow through six countries in total before exiting into the North Sea. The river has been used for trade for many years, even as far back as the Roman era over 2,000 years ago. The river is still used for transporting goods today, and many towns have been built along the river to support the many businesses.
